The currently approved information collections under Control No. 3060–1030 relate to three groups of Advanced Wireless Service (“AWS”) spectrum, commonly referred to as AWS–1, AWS–3, and AWS–4. The FCC’s policies and rules apply to application, licensing, operating and technical rules for this spectrum. The respondents are AWS licensees, incumbent Fixed Microwave Service (FS) and Broadband Radio Service (BRS) licensees that relocate out of the AWS bands, and AWS Clearinghouses that keep track of cost sharing obligations. AWS licensees also have coordination requirements with certain Federal Government incumbents.

The information collection requirements are used by incumbent licensees and new entrants to negotiate relocation agreements and to coordinate operations to avoid interference. The information also will be used by the clearinghouses to maintain a national database, determine reimbursement obligations of entrants pursuant to the Commission’s rules, and notify such entrants of their reimbursement obligations. Additionally, the

information will be used to facilitate dispute resolution and for FCC oversight of the clearinghouses and the cost-sharing plan.
