BILLING CODE 5001-10-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DOD-2017-OS-0035]

Submission for OMB Review; Comment Request

AGENCY: Office of the Under Secretary of Defense for Acquisition, Technology and Logistics, DoD.

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by November 27, 2017.

ADDRESSES: Comments and recommendations on the proposed information collection should be emailed to Ms. Jasmeet Sehra, DoD Desk Officer, at Oira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer and the Docket ID number and title of the information collection.

FOR FURTHER INFORMATION CONTACT: Fred Licari, 571-372-0493, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title, Associated Form and OMB Number: Pre-embarkation Certificate of Disinsection, DD Form 3044; OMB Control Number 0704-XXXX.

Type of Request: New.
Number of Respondents: 1,000.
Responses per Respondent: 1.
Annual Responses: 1,000.
Average Burden per Response: 10 minutes.

Annual Burden Hours: 166.67 hours.
Needs and Uses: The information collection requirement is necessary to provide proof of aircraft disinsection to foreign countries that require it, before cargo and aircrew will be allowed to dis-embark in those countries.

Affected Public: Individuals or households.

Frequency: On Occasion.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Ms. Jasmeet Sehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

• *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket

ID number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Mr. Frederick Licari.

Written requests for copies of the information collection proposal should be sent to Mr. Licari at WHS/ESD Directives Division, 4800 Mark Center Drive, East Tower, Suite 03F09, Alexandria, VA 22350-3100.

Dated: October 20, 2017.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

SUPPLEMENTARY INFORMATION:

Title, Associated Form and OMB Number: Assessing and Strengthening the Manufacturing and Defense Industrial Base Supply Chain Resiliency of the United States; OMB Control Number 0704-XXXX.

Type of Request: Emergency.

Number of Respondents: 300.

Responses per Respondent: 1.

Annual Responses: 300.

Average Burden Per Response: 60 minutes.

Annual Burden Hours: 300.

Needs and Uses: The information collection requirement is being submitted as an emergency. The information collection requirement is necessary to obtain information in support of Executive Order 13806: Assessing and Strengthening the United States Manufacturing and Defense Industrial Base and Supply Chain Resiliency. The questionnaire is used to identify, assess, and make recommendations in support of a more robust industrial base.

Affected Public: Businesses or other for-profit.

Frequency: One Time.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Environmental Impact Statement Withdrawal and Availability of an Environmental Assessment for the Souris River Basin Flood Risk Management Feasibility Study, Ward County, North Dakota

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of withdrawal of an environmental impact statement; notice of availability of an environmental assessment.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA), on September 18, 2016, the St. Paul District, U.S. Army Corps of Engineers (Corps) initiated the Environmental Impact Statement (EIS) process to identify and analyze potential impacts associated with flood risk management measures evaluated within a Federal feasibility study for the Souris River Basin within the continental United States. Currently, the Corps has identified a Tentatively Selected Plan (TSP) that includes a high-flow diversion and a 1200-ft long levee. However, preliminary analysis of the TSP indicate no significant impacts are expected, therefore the Corps is terminating the EIS process and is withdrawing the Notice of Intent published in the Thursday, September 18, 2016 issue of the **Federal Register**. In its place, a draft Integrated Feasibility Report and Environmental Assessment (FR/EA) will be available for a 30-day public comment period beginning October 30, 2017.

DATES: Comments on the draft FR/EA may be submitted starting October 30, 2017 through November 30, 2017. If comments are provided by mail, they must be received at the address below no later than November 30, 2017.

ADDRESSES: The draft FR/EA can be viewed online starting October 30, 2017 at <http://www.mvp.usace.army.mil/Home/Public-Notices/>.

Comments may be submitted on the draft FR/EA using any of the following methods:

- *Mail:* Attn: David F. Potter, Regional Planning and Environment Division North, U.S. Army Corps of Engineers, 180 Fifth Street East, Suite 700, St. Paul, MN 55101-1678.

- *Email:* david.f.potter@usace.army.mil.

Instructions: Direct your comments to Corps of Engineers St. Paul District. Comment letters should include the

commenter's physical mailing address and the project title in the subject line. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked "late," and may only be considered if time permits. Please note that comments may be part of the public record.

FOR FURTHER INFORMATION CONTACT:

Questions regarding this action can be addressed to Mr. David F. Potter, Regional Planning & Environment Division North, by phone: (651) 290-5713, by fax: (651) 290-5805, by email: david.f.potter@usace.army.mil, or by mail: Regional Planning and Environment Division North, U.S. Army Corps of Engineers, 180 Fifth Street East, Suite 700, St. Paul, MN 55101-1678.

SUPPLEMENTARY INFORMATION: The Souris River Basin Flood Risk Management Feasibility Study (Feasibility Study) is being developed by the Corps in partnership with the Souris River Joint Water Resources Board (SRJB). The purpose of this study is to collect and evaluate pertinent engineering, economic, social, and environmental information in order to assess the potential for a federal flood risk management project within the basin. The study objective is to define a feasible and implementable project to reduce flood risk which is relatively high within the basin. Due to the potentially significant environmental effects associated with the project, the Corps issued a Notice of Intent to Prepare an EIS (76 FR 336) on September 18, 2016.

The Feasibility Study is complementary to the SRJB's local plan, the Mouse River Enhanced Flood Protection Plan (MREFPP). Because of its influence on an existing federal flood project, this non-federal effort has requested permission from the Corps of Engineers to pursue actions under 33 U.S.C. 408 (frequently referred to as Section 408). A separate Notice of Intent was published (FR Doc. 2015-17670 Filed July 16, 2015) for an EIS associated with the Corps of Engineers' decision on the Section 408 request. Additional details on the local, non-federal flood MREFPP can be found at mouseriverplan.com. During this Feasibility Study, many of the initial flood risk management measures were screened out from further consideration. Major features of the TSP include a high-flow diversion and a 1200-ft long levee. Preliminary analysis indicate that the environmental effects of the TSP are less than significant. For this reason, an EIS is no longer being pursued in favor
