

section of the wellbore to outside atmospheric pressure;

(c) The petitioner further states that the MSHA District Manager and the appropriate West Virginia Office of Miners' Health Safety and Training representative will be notified at least 48 hours prior to the anticipated mine-through time;

(d) Drivage sights will be installed within 80 feet of the mine-through point;

(e) Firefighting equipment will be provided near the working face, including two 10-pound fire extinguishers, 240 pounds of rock dust, and fire hose of sufficient length to reach the working face and capable of delivering at least 50 gallons per minute of water at minimum pressure of 50 PSI;

(f) At least 9,000 CFM of intake air at the face will be supplied, but no less than the amount in the approved ventilation plan;

(g) The continuous miner methane monitor will be calibrated prior to use when the mine-through is anticipated or is occurring;

(h) A test for methane will be conducted with a hand-held methane detector at least every 10 minutes during the time mining commences at the minimum barrier distance line or within 30 feet of the wellbore, whichever is greater;

(i) All equipment will be deenergized and the area thoroughly examined when the wellbore is intersected;

(j) Once the area has been determined to be safe and mining has resumed, hand-held methane detector tests will continue at least every 10 minutes during production shifts, until mining has progressed 20 feet past the initial mine-through point;

(k) No persons will be permitted in the area of the mine-through operation except those persons actually engaged in the operation, including mine management, personnel from MSHA, and personnel from the appropriate State agency; and

(l) A certified official will directly supervise the mine-through operation and only the certified official in charge will issue instructions concerning the mine-through operation.

(6) Prior to mining through a lateral wellbore of a coalbed methane well which has already at least one lateral wellbore mined through, the petitioner proposes to verify the following procedures have been performed on the well:

(a) The water will be bailed from the vertical section of the wellbore, as close

to the coal seam elevation as practical using normal bailing equipment;

(b) The surface well head will be maintained open to bring the vertical section of the wellbore to outside atmospheric pressure;

(c) Drivage sights will be installed within 80 feet of the mine-through point;

(d) Firefighting equipment will be provided near the working face, including two 10-pound fire extinguishers, 240 pounds of rock dust, and fire hose of sufficient length to reach the working face and capable of delivering at least 50 gallons per minute of water at minimum pressure of 50 PSI;

(e) At least 9,000 CFM of intake air at the face will be supplied, but no less than the amount in the approved ventilation plan;

(f) The continuous miner methane monitor will be calibrated on one of the five production shifts prior to the shift during which the mine-through is anticipated;

(g) A test for methane will be provided with a hand-held methane detector at least every 10 minutes during the time mining is conducted within 30 feet of the wellbore;

(h) All equipment will be deenergized and the area thoroughly examined when the wellbore is intersected;

(i) Once the area has been determined to be safe and mining has resumed, hand-held methane detector tests will continue at least every 10 minutes during production shifts, until mining has progressed 20 feet past the initial mine-through point;

(j) No persons will be permitted in the area of the mine-through operation except those persons actually engaged in the operation, including mine management, personnel from MSHA, and personnel from the appropriate State agency;

(k) A certified official will directly supervise the mine-through operation and only the certified official in charge will issue instructions concerning the mine-through operation; and

(l) The production hole will remain open and accessible until all mining susceptible of intersecting horizontal wellbores has been completed.

The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same

measure of protection afforded by the existing standard.

Sheila McConnell,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520-43-P

LEGAL SERVICES CORPORATION

Notice of Intent To Award—Grant Awards for the Provision of Civil Legal Services to Eligible Low-Income Clients Beginning January 1, 2018

AGENCY: Legal Services Corporation.

ACTION: Announcement of intention to make FY 2018 Grant Awards.

SUMMARY: The Legal Services Corporation (LSC) hereby announces its intention to award grants to provide economical and effective delivery of high quality civil legal services to eligible low-income clients, beginning January 1, 2018.

DATES: All comments and recommendations must be received on or before the close of business on November 27, 2017.

ADDRESSES: Legal Services Corporation—Grant Awards, Legal Services Corporation; 3333 K Street NW., Third Floor, Washington, DC 20007.

FOR FURTHER INFORMATION CONTACT: Reginald Haley, Office of Program Performance, at (202) 295-1545, or haley@lsc.gov.

SUPPLEMENTARY INFORMATION: Pursuant to LSC's announcement of funding availability on March 22, 2017, 82 FR 14753, and Grant Renewal applications due beginning June 5, 2017, LSC intends to award funds to provide civil legal services in the indicated service areas. Applicants for each service area are listed below. The amounts below are estimates based on the 2017 grant awards to each service area. The estimates incorporate the adjustments for the agricultural worker population as described at <http://www.lsc.gov/ag-worker-data>. The funding estimates may change based on the final FY 2018 appropriation.

LSC will post all updates and/or changes to this notice at <http://www.grants.lsc.gov/grants-grantee-resources>. Interested parties are asked to visit <http://www.grants.lsc.gov/grants-grantee-resources> regularly for updates on the LSC grants process.

These grants will be awarded under the authority conferred on LSC by section 1006(a)(1) of the Legal Services Corporation Act, 42 U.S.C. 2996e(a)(1). Awards will be made so that each service area is served, although no listed organization is guaranteed an award. Grants will become effective and grant funds will be distributed on or about January 1, 2018.

This notice is issued pursuant to 42 U.S.C. 2996f(f). Comments and recommendations concerning potential grantees are invited, and should be delivered to LSC within 30 days from the date of publication of this notice.

Dated: October 23, 2017.
Stefanie K. Davis,
Assistant General Counsel.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received.

SUMMARY: The National Science Foundation (NSF) is required to publish

a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by November 27, 2017. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science
