

application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule to determine that the Lebanon County Area attained the 2012 PM_{2.5} NAAQS does not have tribal implications, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because this proposed determination of attainment does not apply in Indian country located in the states and because EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Air Plan Approval; Illinois; Volatile Organic Compounds Definition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a state submission as a revision to the Illinois state implementation plan (SIP) for ozone. The revision, submitted on May 30, 2017, incorporates changes to the Illinois Administrative Code definition of volatile organic material, otherwise known as volatile organic compounds (VOC). The revision removes recordkeeping and reporting requirements related to the use of t-butyl acetate (also known as tertiary butyl acetate) as a VOC, and is in response to an EPA rulemaking that occurred in 2016. Illinois also added information to provide clarity to the list of compounds excluded from the definition of VOC.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this issue of the **Federal Register**, EPA is approving the Illinois's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph,

or section of this rule, and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.
