

average of four minutes to complete each of the 8 rounds of the text survey.

* *Follow-up survey.* The sample for the follow-up survey is the same as for the text survey with one exception. The follow-up survey will be administered via web and permission to be contacted by text is not required to participate in the follow-up survey. The follow-up survey, to be conducted 16 months after the start of Job ChalleNge for each cohort, covers five broad topics: (1) Participants' experiences during Job ChalleNge, such as the services they received; (2) characteristics of a current job and their recent work search efforts, such as employment and earnings; (3) educational experiences, including attainment and future plans; (4) involvement in the court system, such as whether or not the participant was arrested and convicted of a crime; and

(5) views about the value of different aspects of the Job ChalleNge program. It is expected to take the participants an average of 15 minutes to complete the survey.

II. *Desired Focus of Comments:* Currently, DOL is soliciting comments concerning the above data collection for the National Guard Youth ChalleNge Job ChalleNge Evaluation. DOL is particularly interested in comments that do the following:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology—for example, permitting electronic submission of responses.

III. *Current Actions:* At this time, DOL is requesting clearance for the text message survey and the follow-up survey.

Type of Review: New information collection request.

OMC Control Number: 1290—ONEW.

Affected Public: Youth participating in the Youth ChalleNge program and the Job ChalleNge program.

ESTIMATED TOTAL BURDEN HOURS

Type of instrument	Total number respondents	Annual number of respondents	Number of responses per respondent	Average burden hour per response (hours)	Annual estimated burden hours	Total estimated burden hours
Texting Data Collection	^a 351	117	8	0.07	66	197
Follow-up Survey	^b 414	138	1	0.25	35	104
Total	^c 765	255	101	301

^aThe text message survey will be collected from all Job ChalleNge participants who consented to participate in the study, who provided a cell phone number to the study team, and who consented to be contacted via text messaging. The number of respondents is based on a 90% study consent rate × an 85% consent to text rate × an 85% response rate.

^bThe follow-up survey will be collected from all Job ChalleNge participants who consented to participate in the study. The number of respondents is based on a 90% study participation consent rate × an 85% response rate.

^cMost youth participating in the text data collection will also participate in the follow-up data collection. Therefore, the table provides an upper estimate of the number of separate respondents.

Form(s): Total respondents: 765 youth. Most youth participating in the text data collection will also participate in the follow-up data collection. Therefore, this estimate provides an upper estimate of the number of separate respondents.

Annual Frequency: Eight times for the text survey and one time for the follow-up survey.

Comments submitted in response to this request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.
