

provisions of the Federal railroad safety regulations contained at Title 49 Code of Federal Regulations (CFR) part 231. FRA assigned the petition Docket Number FRA-2017-0116.

Pursuant to 49 CFR 231.35, BNSF seeks relief from AAR Standard S-2044, Appendix D1, the approved industry standard for safety appliances for flatcars with full decks. BNSF requests permission to alter Boeing aircraft fuselage flatcars and idler cars by modifying the transverse end and side handhold arrangement at the BL and AR corners of the flatcars. In order to transport the aircraft fuselages safely, the BR and AL side and end handholds will be positioned six (6) inches above the deck of the flatcar which will allow employees to safely utilize the handholds. BNSF states that ergonomic analysis of this arrangement indicates this modification does not compromise rail safety.
