#### Overview of This Information Collection

(1) *Type of Information Collection:* Reinstatement, with change, of a previously approved collection.

(2) *The Title of the Form/Collection:* 2018 Census of State and Local Law Enforcement Agencies (CSLLEA).

(3) *The agency form number, if any, and the applicable component of the*

*Department sponsoring the collection:* The form number is CJ-38. The applicable component within the Department of Justice is the Bureau of Justice Statistics, Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will include all publicly-funded state, county and local law enforcement agencies in the United States that employ the equivalent of at least one full-time sworn officer with general arrest powers. Both general purpose agencies (i.e., any public agency with sworn officers whose patrol and enforcement responsibilities are primarily delimited by the boundaries of a municipal, county, or state government) and special purpose agencies (e.g., campus law enforcement, transportation, natural resources, etc.) meeting the above description will be asked to respond.

*Abstract:* BJS has conducted the CSLLEA regularly since 1992. The 2018 CSLLEA will be the seventh administration. Historically, the CSLLEA generates an enumeration of all publically funded state, county and local law enforcement agencies operating in the United States. The CSLLEA provides complete personnel counts and an overview of the functions performed for approximately 20,000 law enforcement agencies operating nationally.

The 2018 CSLLEA collection involves two phases. In the first phase, BJS will cognitively test the revised instrument with 48 agencies based on agency type (i.e., local and county police, sheriff's office, or special purpose) and size (i.e., 100 or more full-time equivalent sworn officers or less than 100 full-time equivalent sworn officers). A maximum of 8 agencies of each type and size will be asked to participate in testing. BJS has reduced the number of items from the 2014 administration but has included additional items on limited sworn officers. Additionally, BJS will continue to refine the universe frame by verifying agency in-service status, contact information and de-duplicating agencies.

Pending positive results from the first phase, in the second phase, BJS will conduct the main data collection. The 2018 CSLLEA is designed to collect general information on state, county and local law enforcement agencies. The survey asks about the level of government that operates the agency; total operating budget; full-time and part-time personnel counts for fully sworn officers, limited sworn officers and non-sworn employees; gender and primary job responsibility of full-time

sworn officers; and the functions the agency performs on a regular or primary basis. Upon completion, the 2018 CSLLEA will serve as the sampling frame for future law enforcement surveys administered by BJS.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* For the cognitive testing, BJS is planning 48 agencies with an estimated total respondent burden of 90 minutes. For the full data collection, BJS estimates a maximum of 20,000 state, county and local law enforcement agencies with a respondent burden of about 45 minutes per agency, including the follow-up time.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated total respondent burden for the cognitive testing is 72 hours. The maximum respondent burden for the full data collection is approximately 15,000 burden hours. Therefore, total burden for both phases is approximately 15,072 burden hours.

*If additional information is required contact:* Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., 3E.405A, Washington, DC 20530.

Dated: November 13, 2017.
