SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Section 190 of the Workforce Innovation and Opportunity Act (WIOA) (Pub. L. 113-128, July 22, 2014) permits states to apply for Workflex waiver authority. The Act and 20 CFR 679.630 provide that the Secretary may grant Workflex waiver authority for up to five years pursuant to a Workflex plan submitted by a state. Under Workflex, governors are granted the authority to approve requests submitted by their local areas to waive certain statutory and regulatory provisions of WIOA Title I programs. States may also request waivers from the Secretary of certain requirements of the Wagner-Peyser Act (Sections 8-10) as well as certain provisions of the Older Americans Act of 1965 (OAA) (42 U.S.C. 3056d(b)) for state agencies on aging with respect to activities carried out using funds allotted under OAA section 506(b). One of the underlying principles for granting Workflex waivers is that the

waivers will result in improved performance outcomes for persons served and that waiver authority will be granted in consideration of improved performance.

This is a continuation of the previous collection instructions request under WIA, and WIOA continues to authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Number: 1205-0432.

Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.
