

(OMB) to obtain the full three-year clearance.

This study's collection of information on actual speeds and performance of fixed and mobile broadband connections delivered to consumers by ISPs has been reported to be of great value to academic researchers, manufacturers and technology providers, broadband providers, public interest groups and other diverse stakeholders. Validation of fixed broadband subscribed speeds as opposed to actual speeds by participating ISPs remains unique to this program and provides a context for measured speeds. Mobile broadband performance information is measured using the FCC Speed Test app for Android and iPhone devices to test the upload and download speed, latency and packet loss, as well as the wireless performance characteristics of the broadband connection and the kind of handsets and versions of operating systems tested. Information the FCC Speed Test App ("Application") collects is limited to information used to measure volunteers' mobile broadband service and no personally identifiable information, such as subscribers' name, phone number or unique identifiers associated with a device is collected. Software-based tools and online tools exist that can test consumer's broadband connections, including a set of consumer tools launched by the FCC in conjunction with the National Broadband Plan. However, these tools track speeds experienced by consumers, rather than speeds delivered directly to a consumer by an ISP. The distinction is important for supporting Agency broadband policy analysis, as ISPs advertise speeds and performance delivered rather than speeds experienced, which suffers from degradation outside of an ISP's control.

No other dedicated panel of direct fixed and mobile broadband performance measurement using publicly documented methodologies using free and add-free technologies exists today in the country. The program will continue to support existing software-based tools and online tools but the focus of the program will remain the direct measurement of broadband performance delivered to the consumer. The collection effort also has specific elements focused on further network performance statistics, time of day parameters, and other elements affecting consumers' broadband experience that are not tracked elsewhere. The information to be confirmed by ISP Partners about their subscribers or technical and market data regarding the

broadband services they provide is unavailable from other sources.

Final Approval Under OMB Delegated Authority of the Extension for Three Years, Without Revision, of the Following Report

Report title: Application for Exemption from Prohibited Service at Savings and Loan Holding Companies.

Agency form number: FR LL-12.

OMB control number: 7100-0338.

Frequency: On occasion.

Respondents: Individuals and savings and loan holding companies.

Estimated number of respondents: 15.

Estimated average hours per response: 16.

Estimated annual burden hours: 240.

General description of report: The Federal Deposit Insurance (FDI) Act and Regulation LL (12 CFR part 238) prohibit individuals who have been convicted of certain criminal offenses or who have agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such criminal offenses from participating in the affairs of a savings and loan holding

company (SLHC) or any of its subsidiaries without the written consent of the Board. In order for such a person to participate in the conduct of the affairs of any SLHC, the SLHC or the individual must file an application seeking to obtain an exemption from the Board. The Board will use any information provided by the applicant when considering an exemption request concerning a prohibited person. Such considerations will include, but are not limited to, whether the prohibited person would participate in the major policymaking functions of the SLHC or would threaten the safety and soundness of any subsidiary insured depository institution of the SLHC or the public confidence in the insured depository institution.

Legal authorization and confidentiality: The Board has determined that this information collection is authorized by section 19(e)(2) of the FDI Act, which states that the "Board . . . may provide exemptions [from the prohibition] by regulation or order . . . if the exemption is consistent with the purposes of this subsection" (12 U.S.C. 1829(e)(2)). The Board exercises general supervision over SLHCs, which includes examination authority and the imposition of reporting and recordkeeping requirements (12 U.S.C. 1467a(b)(2)). This information collection is required in order for prohibited persons to obtain the benefit of becoming, or continuing service as, an institution-affiliated party of an SLHC, and for an SLHC to permit that prohibited person to engage in any conduct or continue any relationship prohibited by section 19(e) of the FDI Act.

Some or all of the information submitted may be withheld pursuant to sections (b)(4), (b)(6), and (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(4), (b)(6), (b)(8)). The applicability of these exemptions would need to be determined on a case-by-case basis.
