Rule 3a-8

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit the existing collection of information to the Office of Management and Budget for extension and approval.

Rule 3a-8 (17 CFR 270.3a-8) of the Investment Company Act of 1940 (15 U.S.C. 80a) (the "Act"), serves as a nonexclusive safe harbor from investment company status for certain research and development companies ("R&D companies").

The rule requires that the board of directors of an R&D company seeking to rely on the safe harbor adopt an appropriate resolution evidencing that the company is primarily engaged in a non-investment business and record that resolution contemporaneously in its minute books or comparable documents.<sup>1</sup> An R&D company seeking to rely on the safe harbor must retain these records only as long as such records must be maintained in accordance with state law.

Rule 3a-8 contains an additional requirement that is also a collection of information within the meaning of the PRA. The board of directors of a company that relies on the safe harbor under rule 3a-8 must adopt a written policy with respect to the company's capital preservation investments. We

expect that the board of directors will base its decision to adopt the resolution discussed above, in part, on investment guidelines that the company will follow to ensure its investment portfolio is in compliance with the rule's requirements.

The collection of information imposed by rule 3a-8 is voluntary because the rule is an exemptive safe harbor, and therefore, R&D companies may choose whether or not to rely on it. The purposes of the information collection requirements in rule 3a-8 are to ensure that: (i) The board of directors of an R&D company is involved in determining whether the company should be considered an investment company and subject to regulation under the Act, and (ii) adequate records are available for Commission review, if necessary. Rule 3a-8 would not require the reporting of any information or the filing of any documents with the Commission.

Commission staff estimates that there is no annual recordkeeping burden associated with the rule's requirements. Nevertheless, the Commission requests authorization to maintain an inventory of one burden hour for administrative purposes.

Commission staff estimates that approximately 65,139 R&D companies may take advantage of rule 3a-8.<sup>2</sup> Given that the board resolutions and investment guidelines will generally need to be adopted only once (unless relevant circumstances change),<sup>3</sup> the Commission believes that all the R&D companies that existed prior to the adoption of rule 3a-8 adopted their board resolutions and established written investment guidelines in 2003 when the rule was adopted. We expect that R&D companies formed subsequent to the adoption of rule 3a-8 would adopt the board resolution and investment guidelines simultaneously with their formation documents in the ordinary course of business.<sup>4</sup> Therefore, we estimate that rule 3a-8 does not impose additional burdens.

*Written comments are invited on:* (a) Whether the proposed collection of

<sup>3</sup> In the event of changed circumstances, the Commission believes that the board resolution and investment guidelines will be amended and recorded in the ordinary course of business and would not create additional time burdens.

<sup>4</sup> In order for these companies to raise sufficient capital to fund their product development stage, Commission staff believes that they will need to present potential investors with investment guidelines. Investors generally want to be assured that the company's funds are invested consistent with the goals of capital preservation and liquidity.

information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

## SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-035, OMB Control No. 3235-0029]

### Submission for OMB Review; Comment Request

*Upon Written Request, Copies Available*

*From:* Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549-2736

*Extension:*

Rule 17Ad-2(c), (d), and (h)

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 17Ad-2(c), (d), and (h), (17 CFR 240.17Ad-2(c), (d), and (h)), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 17f-2(c) allows persons required to be fingerprinted pursuant to Section 17(f)(2) of the Act to submit their fingerprints to the Attorney General of the United States or its designee (*i.e.*, the Federal Bureau of Investigation ("FBI")) through a registered national securities exchange or a registered national securities association

<sup>13</sup> 17 CFR 200.30-3(a)(12).

<sup>1</sup> Rule 3a-8(a)(6) (17 CFR 270.3a-8(6)).

(collectively, also known as “self-regulatory organizations” or “SROs”) pursuant to a fingerprint plan filed with, and declared effective by, the Commission. Fingerprint plans have been approved for the American, Boston, Chicago, New York, and Philadelphia stock exchanges and for the Financial Industry Regulatory Authority (“FINRA”) and the Chicago Board Options Exchange. Currently, the bulk of the fingerprints are submitted through FINRA.

It is estimated that 4,200 respondents submit approximately 285,600 sets of fingerprints (consisting of approximately 243,600 electronic sets and 42,000 hard copy sets) to SROs on an annual basis. The Commission estimates that it would take approximately 15 minutes to create and submit each fingerprint card. The total reporting burden is therefore estimated to be approximately 71,400 hours, or approximately 15 hours per respondent, annually.

In addition, the SROs charge an estimated \$25.00 fee for processing fingerprint cards submitted electronically, resulting in a total annual cost to all 4,200 respondents of \$6,090,000, or \$1,450 per respondent per year. The SROs charge an estimated \$40.00 fee for processing fingerprint cards submitted in hard copy, resulting in a total annual cost to all 4,200 respondents of approximately \$1,680,000, or \$400 per respondent per year. The combined annual cost to all respondents is thus \$7,770,000.

Because the FBI will not accept fingerprint cards directly from submitting organizations, Commission approval of fingerprint plans from certain SROs is essential to carry out the Congressional goal to fingerprint securities industry personnel. Filing these plans for review assures users and their personnel that fingerprint cards will be handled responsibly and with due care for confidentiality.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
