DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2017-0969; Airspace Docket No. 17-ANM-18]

Proposed Amendment of Class D and Class E Airspace; Twin Falls, ID

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class E airspace designated as an extension, and modify Class E airspace extending upward from 700 feet above the surface at Joslin Field-Magic Valley Regional Airport, Twin Falls, ID. Also, the part-time Notice to Airmen (NOTAM) status would be removed from Class E airspace designated as an extension. Additionally, an editorial change would be made to the Class D airspace, Class E surface airspace, and Class E extension airspace legal descriptions replacing "Airport/Facility Directory" with the term "Chart Supplement." Also, this proposal would remove the words "Twin Falls" from the airport name in the airspace designations for

Class D and E airspace noted in this proposal. A biennial review found these changes are necessary to accommodate airspace redesign for the safety and management of instrument flight rules (IFR) operations within the National Airspace System.

DATES: Comments must be received on or before January 22, 2018.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of

airspace. This regulation is within the scope of that authority as it would amend Class D and Class E airspace at Joslin Field-Magic Valley Regional Airport, Twin Falls, ID, in support of IFR operations at the airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (Docket No. FAA-2017-0969; Airspace Docket No. 17-ANM-18) and be submitted in triplicate to DOT Docket Operations (see **ADDRESSES** section for address and phone number).

Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2017-0969, Airspace Docket No. 17-ANM-18". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E airspace designated as an extension to a Class D or Class E surface area, and Class E airspace extending upward from 700 feet above the surface at Joslin Field-Magic Valley Regional Airport, Twin Falls, ID.

Class E airspace designated as an extension to a Class D or Class E surface area would be reduced to a 5-mile wide segment (from 8.6 miles wide) extending to 7 miles east (from 9.2 miles east), and a 5-mile wide segment (from 8.6 miles wide) extending to 7.1 miles (from 9.2 miles) west of the airport. Also, the part-time Notice to Airmen (NOTAM) status would be removed from Class E airspace designated as an extension, as this airspace is continuous.

Class E airspace extending upward from 700 feet above the surface would be reduced to a 12-mile wide segment (from a 16.5-mile wide segment) extending to 21.9 miles east (from 26.1 miles east), and 16 miles west (from 20 miles west) of the airport. Also, the small extension to 8.2 miles southeast of the airport would be removed.

Finally, this action would replace the outdated term "Airport/Facility Directory" with the term "Chart Supplement" in the Class D, and Class E surface airspace legal descriptions, and remove the words "Twin Falls" from the airport name in the airspace designations for Class D and E airspace noted in this proposal.

These modifications are necessary for the safety and management of IFR operations at the airport.

Class D and Class E airspace designations are published in paragraph 5000, 6002, 6004, and 6005,

respectively, of FAA Order 7400.11B, dated August 3, 2017 and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
