

• The estimated total cost and a clear description of what the grant will fund. Your narrative should provide a breakdown of the major expenses including, but not limited to, personnel, project expenses, contracts or subgrants, etc., and how each expense supports the transformation effort to improve your pro bono program.

• For expenses related to personnel, please indicate how many and which positions will be fully or partially funded by the proposed grant.

• For contracts, please describe whether you intend to use consultants, implement new technology systems, conduct business process analysis, etc. and how this supports improvements to your pro bono program.

3. Sustainability Grants

The LOI Narrative for *Sustainability Grants* should respond to the following questions.

a. Justification for Sustaining the Pro Bono Innovation Project. Please describe why you are seeking Sustainability Grant. In your response, please discuss the following:

• The impact of the Pro Bono Innovation Fund project to date, supported by data and analysis as to whether the goals of the project were achieved.

• Evidence of ongoing client need and how you intend to make the project part of your core legal services.

• The level of engagement of pro bono volunteers/private bar and the best practices in pro bono delivery that can be replicated by others.

• How ongoing program evaluation and data collection will be incorporated into the project.

b. Project Staff and Management Support. Please briefly identify and describe the project team and project partners. In your response, please include the following:

• The project staff that will be responsible for the sustainability phase of the project. Please include any additional staff, descriptions of new responsibilities for existing project staff and/or organizational changes that will be made.

• The role of your organization's executive management in the decision to seek this Sustainability Grant and recent examples of your organization's track record turning "new" or special projects into core legal services.

c. Budget and Match Requirement. Please describe what you would like the *Sustainability Grant* to fund. In your response, please be sure to provide the following information:

• Estimated total project cost. This includes the estimate for the Pro Bono

Innovation Fund requested amount and other in-kind or cash contributions to support the project. Your narrative should provide a breakdown of the major project expenses including, but not limited to, personnel, project expenses, etc., and how each expense supports the project design.

• A narrative proposing an ambitious match requirement that reduces the Pro Bono Innovation Fund contribution to the project for the grant term. LSC is not setting a specific percentage of required match for Sustainability Grant applicants, but will assess the two-year budget from the applicant's previously funded project with the grant amount proposed in the Sustainability LOI. LSC's expectation is that applicants will propose a meaningful shift from Pro Bono Innovation Fund support to other sources of support during the grant term.

• A narrative discussing the potential sources of funding that have been or will be cultivated. If the project has already received new financial support, please provide the source and amount committed and further describe the plans for ensuring continued financial support.
