

the main and tail rotors. The FCCs process the pilot control input signals depending on the flight control mode in affect.

Discussion

The current 14 CFR 29 standards do not provide adequate standards for pilot awareness of the flight control modes while operating the helicopter. The proposed special condition will require that suitable mode annunciation be provided to the flight crew for events that significantly change the operating mode of the system but do not merit the traditional warnings, cautions, and advisories.

Applicability

As discussed above, these special conditions are applicable to the BHTI Model 525 helicopter. Should BHTI apply at a later date for a change to the type certificate to include another model incorporating the same novel or unusual design feature, the special conditions would apply to that model as well.

Conclusion

This action affects only certain novel or unusual design features on one model of rotorcraft. It is not a rule of general applicability.

List of Subjects in 14 CFR Part 29

Aircraft, Aviation safety, Reporting and recordkeeping requirements.

The authority citation for these special conditions is as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701, 44702, 44704.

The Proposed Special Conditions

Accordingly, the Federal Aviation Administration (FAA) proposes the following special conditions as part of the type certification basis for Bell Helicopter Textron, Inc., Model 525 helicopters:

Mode Annunciation: A means must be provided to indicate to the crew any mode that significantly changes or degrades the handling or operational characteristics of the rotorcraft.

Issued in Fort Worth, Texas on November 16, 2017.

Larry M. Kelly,

Manager, Rotorcraft Standards Branch, Policy and Innovation Division Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF THE TREASURY

Alcohol and Tobacco Tax and Trade Bureau

27 CFR Part 24

[Docket No. TTB-2016-0010; Notice No. 164B; Re: Notice No. 164 and Notice No. 164A]

RIN 1513-AB61

Wine Treating Materials and Related Regulations; Comment Period Extension

AGENCY: Alcohol and Tobacco Tax and Trade Bureau, Treasury.

ACTION: Notice of proposed rulemaking; extension of comment period.

SUMMARY: The Alcohol and Tobacco Tax and Trade Bureau (TTB) is extending for an additional 90 days the recently-reopened comment period for Notice No. 164, Wine Treating Materials and Related Regulations, a notice of proposed rulemaking published in the **Federal Register** on November 22, 2016. TTB is taking this action in response to a request from a wine industry trade association.

DATES: Written comments on Notice No. 164 are now due on or before April 9, 2018.

ADDRESSES: Please send your comments on Notice No. 164 to one of the following addresses:

- <https://www.regulations.gov> (via the online comment form for Notice No. 164 as posted within Docket No. TTB-2016-0010 at *Regulations.gov*, the Federal e-rulemaking portal);
- *U.S. Mail:* Director, Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street NW., Box 12, Washington, DC 20005; or
- *Hand delivery/courier in lieu of mail:* Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street NW., Suite 400, Washington, DC 20005.

See the Public Participation section of Notice No. 164 for specific instructions and requirements for submitting comments.

FOR FURTHER INFORMATION CONTACT: Kara Fontaine, Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street NW., Box 12, Washington, DC 20005; phone (202) 453-1039, ext. 103.

SUPPLEMENTARY INFORMATION: In Notice No. 164, a notice of proposed rulemaking published in the **Federal Register** on November 22, 2016 (81 FR 83752), the Alcohol and Tobacco Tax and Trade Bureau (TTB) requested public comment on amendments to its

regulations pertaining to the production of wine and in particular in regard to the permissible treatments that may be applied to wine and to juice from which wine is made. TTB issued the proposed amendments in response to requests from wine industry members to authorize certain wine treating materials and processes not currently authorized by TTB regulations. In Notice No. 164, TTB invited comments on the proposed regulatory changes and the wine treatments and materials issues addressed in that document. The 60-day comment period for Notice No. 164 originally closed on January 23, 2017. In Notice No. 164A, published in the **Federal Register** on October 11, 2017 (82 FR 47167), TTB reopened the comment period for Notice No. 164 for an additional 90 days in response to industry member requests.

On October 24, 2017, TTB received a letter via the *Regulations.gov* Web site posting for Notice No. 164 from the Wine Institute, a large wine industry trade association based in San Francisco, California, requesting a 90-day extension of the comment period on the wine treating materials regulatory amendments proposed in Notice No. 164. In its letter, the Wine Institute stated that its members required additional time to consider the “complex and far reaching” proposals contained in Notice No. 164, as well as the document’s request for input on other regulatory issues. The Wine Institute stated that TTB reopened the comment period for Notice No. 164 during the recent Northern California wildfires, which caused many of its members to experience calamitous personal and business losses. The Wine Institute also noted that TTB’s proposal is open for comment during the holiday season, when many stakeholders will be unavailable due to commercial and family commitments. The Wine Institute’s letter is posted as Comment 13 to Notice No. 164 within Docket No. TTB-2016-0010 on the *Regulations.gov* Web site at <https://www.regulations.gov>.

In response to this request, TTB is extending the comment period for Notice No. 164 for an additional 90 days. Therefore, comments on Notice No. 164 are now due on or before April 9, 2018. Comments on Notice No. 164 may be submitted as described above in the **ADDRESSES** section of this document.

Drafting Information

Kara Fontaine of the Regulations and Rulings Division drafted this notice.

Signed: November 17, 2017.

John J. Manfreda,
Administrator.

BILLING CODE 4810-31-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2015-0824; FRL-9971-63-Region 5]

Air Plan Approval; Ohio; Infrastructure SIP Requirements for the 2012 PM_{2.5} NAAQS; Multistate Transport

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve elements of the State Implementation Plan (SIP) submission from Ohio regarding the infrastructure requirements of section 110 of the Clean Air Act (CAA) for the 2012 annual fine particulate matter (PM_{2.5}) National Ambient Air Quality Standard (NAAQS or standard). The infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the state's responsibilities under the CAA. This action pertains specifically to infrastructure requirements concerning interstate transport provisions.

DATES: Comments must be received on or before January 8, 2018.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2015-0824 at <http://www.regulations.gov>, or via email to blakley.pamela@epa.gov. For comments submitted at [Regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.regulations.gov). For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, cloud, or other file sharing

system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Anthony Maietta, Environmental Protection Specialist, Control Strategies Section, Air Programs Branch (AR-18)), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-8777, maietta.anthony@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What is the background of this SIP submission?
- II. What guidance is EPA using to evaluate this SIP submission?
- III. EPA's Review
- IV. What action is EPA taking?
- V. Statutory and Executive Order Reviews

I. What is the background of this SIP submission?

This rulemaking addresses a submission from the Ohio Environmental Protection Agency (OEPA), describing its infrastructure SIP for the 2012 annual PM_{2.5} NAAQS, dated December 4, 2015. Specifically, this rulemaking addresses the portion of the submission dealing with interstate pollution transport under CAA section 110(a)(2)(D)(i), otherwise known as the “good neighbor” provision. The requirement for states to make a SIP submission of this type arises from section 110(a)(1) of the CAA. Pursuant to section 110(a)(1), states must submit “within 3 years (or such shorter period as the Administrator may prescribe) after the promulgation of a national primary ambient air quality standard (or any revision thereof),” a plan that provides for the “implementation, maintenance, and enforcement” of such NAAQS. The statute directly imposes on states the duty to make these SIP submissions, and the requirement to make the submissions is not conditioned upon EPA's taking any action other than promulgating a new or revised NAAQS. Section 110(a)(2) includes a list of specific elements that “[e]ach such plan” submission must address. EPA commonly refers to such state plans as “infrastructure SIPs.”

II. What guidance is EPA using to evaluate this SIP submission?

EPA highlighted the statutory requirement to submit infrastructure SIPs within 3 years of promulgation of a new NAAQS in a October 2, 2007, guidance document entitled “Guidance on SIP Elements Required Under Sections 110(a)(1) and (2) for the 1997 8-hour Ozone and PM_{2.5} National Ambient Air Quality Standards” (2007 guidance). EPA has issued additional guidance documents and memoranda, including a September 13, 2013, guidance document titled “Guidance on Infrastructure State Implementation Plan (SIP) Elements under Clean Air Act Sections 110(a)(1) and 110(a)(2)” (2013 guidance).

The most recent relevant document was a memorandum published on March 17, 2016, titled “Information on the Interstate Transport ‘Good Neighbor’ Provision for the 2012 Fine Particulate Matter National Ambient Air Quality Standards under Clean Air Act Section 110(a)(2)(D)(i)(I)” (2016 memorandum). The 2016 memorandum describes EPA's past approach to addressing interstate transport, and provides EPA's general review of relevant modeling data and air quality projections as they relate to the 2012 annual PM_{2.5} NAAQS. The 2016 memorandum provides information relevant to EPA Regional office review of the CAA section 110(a)(2)(D)(i)(I) “good neighbor” provision in infrastructure SIPs with respect to the 2012 annual PM_{2.5} NAAQS. This rulemaking considers information provided in that memorandum.

The 2016 memorandum provides states and EPA Regional offices with future year annual PM_{2.5} design values for monitors in the United States based on quality assured and certified ambient monitoring data and air quality modeling. The memorandum further describes how these projected potential design values can be used to help determine which monitors should be further evaluated to potentially address whether emissions from other states significantly contribute to nonattainment or interfere with maintenance of the 2012 annual PM_{2.5} NAAQS at those sites. The 2016 memorandum explained that the pertinent year for evaluating air quality for purposes of addressing interstate transport for the 2012 PM_{2.5} NAAQS is 2021, the attainment deadline for 2012 PM_{2.5} NAAQS nonattainment areas classified as Moderate. Accordingly, because the available data included 2017 and 2025 projected average and maximum PM_{2.5} design values
