SUPPLEMENTARY INFORMATION:

Procedural summary: Effective June 5, 2017, the Commission instituted this investigation under section 202(b) of the Trade Act of 1974 to determine whether large residential washers ("LRWs") are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article. The Commission instituted the investigation in response to a petition, as amended and properly filed on June 5, 2017, by Whirlpool Corporation ("Whirlpool"), a producer of LRWs in the United States.

Notice of the institution of the Commission's investigation and of the scheduling of public hearings to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** (82 FR 27075 (June 13, 2017)). The public hearing in connection with the injury phase of the investigation was held on September 7, 2017, in Washington, DC, and the public hearing in connection with the remedy phase of the investigation was held on October 19, 2017, in Washington, DC; all persons who requested the opportunity were permitted to appear in person or by counsel. The Commission voted with respect to injury issues on October 5, 2017, and with respect to remedy issues on November 21, 2017.

The Commission submitted its report to the President on December 4, 2017. The report included the Commission's injury determination and recommended actions, an explanation of the basis for the injury determination and recommended actions, and a summary of the information obtained in the investigation.

Determination: On the basis of information developed in the subject investigation, the Commission determined pursuant to section 202(b)

of the Trade Act of 1974 that large residential washers are being imported into the United States in such increased quantities as to be a substantial cause of serious injury to the domestic industry producing an article like or directly competitive with the imported article.

Having made an affirmative injury determination pursuant to section 202(b) of the Trade Act of 1974, the Commission was required to make certain additional findings under the implementing statutes of certain free trade agreements ("FTAs") or under statutory provisions related to certain preferential trade programs. Under section 311(a) of the NAFTA Implementation Act (19 U.S.C. 3371(a)), the Commission found that imports of LRWs from neither Canada nor Mexico account for a substantial share of total imports or contribute importantly to the serious injury caused by imports. The Commission also found that imports of LRWs from Australia, CAFTA DR countries, Colombia, Jordan, Korea, Panama, Peru, and Singapore, individually, are not a substantial cause of serious injury or threat thereof, under the relevant FTA implementing legislation. See 19 U.S.C. 2112 note (Jordan); 19 U.S.C. 3805 note (Australia, Colombia, Korea, Panama, Peru, Singapore); 19 U.S.C. 4101 (CAFTA-DR). The Commission also found that the serious injury substantially caused by imports to the domestic industry producing a like or directly competitive article does not result from the reduction or elimination of any duty provided for under the U.S.-Israel Free Trade Agreement or from duty free treatment provided for under the Caribbean Basin Economic Recovery Act provisions of the Caribbean Basin Initiative Trade Program or the GSP program. 19 U.S.C. 2112 note (Israel); 19 U.S.C. 2703(e) (CBERA); 19 U.S.C. 2253(e)(6) (GSP).

Remedy recommendations: In order to address the serious injury to the domestic industry producing large residential washers and be most effective in facilitating the efforts of the domestic industry to make a positive adjustment to import competition, the Commissioners recommend the following actions.

The Commissioners recommend that the President impose a tariff-rate quota (TRQ) on imports of large residential washers for a duration of three years. For U.S. imports of large residential washers that exceed 1.2 million units, the Commissioners recommend a tariff rate of 50 percent *ad valorem*, in addition to the current rate of duty. The Commissioners recommend that the in-quota volume remain constant
