Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection: This electronic collection records medical information necessary to determine whether visa applicants have medical conditions affecting the applicant's eligibility for a visa.

Methodology: Approved panel physicians will be granted access to an eMedical system by the Department of State, to conduct medical examinations for visa eligibility determinations. During the initial rollout, some immigrant visa applicants with a completed and submitted DS-260, Application for Immigrant Visa and Alien Registration will have their medical exam results submitted to the Department via the eMedical system. The panel physician will input the exam information into the eMedical portal and it will be transmitted to the Department for visa adjudication and retained in the Department's systems. The Department anticipates a full rollout of the electronic medical report by the end of 2018. During the transition to eMedical, some applicants' medical exams will be completed via paper forms.

In the paper version of the forms (OMB 1405-0113), the Department of Homeland Security (DHS) usually provides the results of visa applicant medical examinations to the Centers for Disease Control and Prevention (CDC). As the Department transitions to the electronic environment, the information from the medical examinations will be provided directly to CDC and DHS for uses relevant to their respective roles in the admission process and statutory

missions. This change will promote efficiency in the process.

Karin King,

Acting Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.
