Notice of Availability for the Gulf of Mexico Outer Continental Shelf Lease Sale Final Supplemental Environmental Impact Statement 2018; MMAA10400

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of Availability.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) is announcing the availability of the *Gulf of Mexico Outer Continental Shelf Lease Sale: Final Supplemental Environmental Impact Statement 2018* (2018 GOM Final Supplemental EIS). The 2018 GOM Final Supplemental EIS provides an analysis of the potential significant impacts of a proposed action (a regionwide lease sale), provides an analysis of reasonable alternatives to the proposed action, and identifies BOEM's preferred alternative. This Supplemental EIS is expected to be used to inform decisions on each of the two lease sales scheduled in 2018 (*i.e.*, proposed Lease Sales 250 and 251) and to be supplemented as necessary for future Gulf of Mexico regionwide lease sales.

ADDRESSES: The Final Supplemental EIS and associated information are available on BOEM's website at <http://www.boem.gov/nepaprocess/>. BOEM will primarily distribute digital copies of the Final Supplemental EIS on compact discs. You may request a compact disc, a paper copy, or the location of a library with a digital copy of the Final Supplemental EIS from the BOEM, Gulf of Mexico OCS Region, Public Information Office (GM 335A), 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394 or by telephone at 1–800–200–GULF.

FOR FURTHER INFORMATION CONTACT: For more information on the Final Supplemental EIS, you may contact Mr. Greg Kozlowski, Deputy Regional Supervisor, Bureau of Ocean Energy Management, Gulf of Mexico OCS Region, Office of Environment (GM 623E), 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394. You may also contact Mr. Greg Kozlowski by telephone at 504–736–2512 or email at greg.kozlowski@boem.gov.

Authority: This Notice of Availability of a Final Supplemental EIS is published pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and 43 CFR 46.415.

Dated: December 5, 2017.

Walter D. Cruickshank,

Deputy Director, Bureau of Ocean Energy Management.

Agency Information Collection Activities; 30 CFR 550, Subpart B, Plans and Information

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) is proposing to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before February 13, 2018.

ADDRESSES: Send your comments on the information collection request (ICR) by mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, VA DIR-BOEM, Sterling, Virginia 20166 (mail); or by email to anna.atkinson@boem.gov. Please reference OMB Control Number 1010-0151 in the subject line of your comment.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Anna Atkinson by email, or by telephone at 703-787-1025.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) will this information be processed and used

in a timely manner; (3) is the estimate of burden accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This information collection request concerns the paperwork requirements in the regulations under 30 CFR part 550, subpart B, Plans and Information.

The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. Such rules and regulations apply to all operations conducted under a lease, or unit. The OCS Lands Act, at 43 U.S.C. 1340 and 1351, requires the holders of OCS oil and gas or sulphur leases to submit exploration plans (EPs) and development and production plans (DPPs) to the Secretary for approval prior to commencing these activities. Also, as a Federal agency, we have an affirmative duty to comply with the National Environmental Policy Act and the Endangered Species Act (ESA). Compliance with the ESA includes a substantive duty to carry out any agency action in a manner that is not likely to jeopardize protected species, as well as a procedural duty to consult with the United States Fish and Wildlife Service (USFWS) and National Oceanic and Atmospheric Administration Fisheries (NOAA Fisheries) before engaging in a discretionary action that may affect a protected species.

This authority and responsibility are among those delegated to BOEM. The regulations at 30 CFR part 550, subpart B, concern plans and information that must be submitted to conduct activities on a lease or unit, and are the subject of this collection. The collection also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues

to clarify or provide additional guidance on some aspects of our regulations.

In 2016, BOEM published a final rule entitled "Oil and Gas and Sulfur Operations on the Outer Continental Shelf—Requirements for Exploratory Drilling on the Arctic Outer Continental Shelf." This rule finalized new regulations specific to activities conducted on the Arctic OCS that modify 30 CFR part 550, subpart B. The new regulations require operators to develop an Integrated Operations Plan (IOP) for each exploratory program on the Arctic OCS, as well as to submit additional planning information with the Exploration Plans. An additional 3,930 burden hours were approved as part of that rulemaking, and are included in the burden table for this control number. The Secretary's Order 3350 (May 1, 2017), which further implements the President's Executive Order entitled, "Implementing an America-First Offshore Energy Strategy" (82 FR 20815, May 3, 2017) directs BOEM to review the final rule. If the Secretary decides that the final determination is to suspend, revise, or rescind the rule, the related burden hours in this OMB control number will be adjusted accordingly.

BOEM geologists, geophysicists, and environmental scientists and other Federal agencies (*e.g.*, USFWS, NOAA Fisheries) analyze and evaluate the information and data collected under Subpart B to ensure that planned operations are safe; will not adversely affect the marine, coastal, or human environment; and will conserve the resources of the OCS. BOEM uses the information to make an informed decision on whether to approve the proposed exploration or development and production plan as submitted, or require plan modifications. The affected States also review the information collected to determine consistency with approved Coastal Zone Management plans.

Estimated Reporting and Recordkeeping Hour Burden: We expect the estimated annual reporting burden for this collection to be 436,438 hours. We are transferring 3,930 annual burden hours from OMB control number 1010-0189, 30 CFR 550, Subpart B, Arctic OCS Activities, to this information collection request. These 3,930 annual burden hours are for Arctic exploration requirements which were approved by OMB in the final rule for Requirements for Exploratory Drilling on the Arctic OCS, 81 FR 46478 (July 15, 2016). Once this information collection request is approved by OMB, we will be discontinuing OMB control number 1010-0189.
