

II. General Background on the Application

MET submitted four applications, one dated July 7, 2015 (OSHA–2006–0028–0037), two dated December 14, 2016 (OSHA–2006–0028–0038 and OSHA–

2006–0028–0039), and a fourth dated January 11, 2017 (OSHA–2006–0028–0040), to expand its recognition to include four additional test standards. OSHA staff performed a detailed analysis of the application packets and reviewed other pertinent information.

OSHA did not perform any on-site reviews in relation to these applications. Table 1 below lists the appropriate test standards found in MET’s applications for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN MET’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 50E	Enclosures for Electrical Equipment, Environmental Considerations.
UL 60079–1	Standard for Explosive Atmospheres—Part 1: Equipment Protection by Flameproof Enclosures “d”.
UL 60335–2–40	Household and Similar Electrical Appliances—Safety—Part 2–40: Particular Requirements for Electrical Heat Pumps, Air Conditioners and Dehumidifiers.
UL 61800–5–1	Standard for Adjustable Speed Electrical Power Drive Systems—Part 5–1: Safety Requirements—Electrical, Thermal and Energy.

III. Preliminary Findings on the Application

MET submitted acceptable applications for expansion of its scope of recognition. OSHA’s review of the application file, and pertinent information, indicate that MET can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of these four test standards for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of MET’s applications.

OSHA welcomes public comment as to whether MET meets the requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N–3655, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA–2006–0028.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant MET’s applications for expansion of its scope of recognition.

The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

SUMMARY: Further to the **NASA Federal Register** notice of December 12, 2017 (see citation above), NASA announces an invitation for public nominations of U.S. citizens to serve as potential members of the National Space Council Users’ Advisory Group (UAG). The UAG is a new Federal advisory committee under the Federal Advisory Committee Act (FACA) being established pursuant to the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1991 (Pub. L. 101–611, Section 121) and Executive Order 13803, Section 6 (“Reviving the National Space Council”) signed by the President on June 30, 2017. The UAG is purely advisory and will ensure that the interests of industry and other non-Federal entities are adequately represented in the deliberations of the National Space Council. NASA is sponsoring the UAG on behalf of the National Space Council, an Executive Branch interagency coordinating committee chaired by the Vice President, which is tasked with advising and assisting the President on national space policy and strategy. Members of the UAG will serve either as “Representatives” (representing industry, other non-Federal entities, and other recognizable groups of persons involved in aeronautical and space activities), or as “Special Government Employees” (individual subject matter experts or consultants).

Deadline: The deadline for NASA to receive all public nominations is January 10, 2018.

Instructions for Public Nominations: U.S. citizens or organizations may nominate individuals for consideration as potential members of the UAG. Interested candidates may also self-nominate. The candidate must be a U.S. citizen, may not be a regular government employee, and must not be registered by the Department of Justice

under the Foreign Agents Registration Act (FARA), 22 U.S.C. 611 *et seq.* Additionally, a candidate for a Special Government Employee appointment must not be federally registered as a lobbyist under the Lobbying Disclosure Act of 1995, 2 U.S.C. 1602, as amended. Nominations must be contained in an email to NASA attaching the required documents. All nominations should include a cover letter, a resume (including contact information for the individual) and a professional biography demonstrating professional stature, knowledge and experience commensurate with achieving the UAG's purpose as set forth in Public Law 101-611, Section 121. Each document must not exceed one page. The cover letter must be a signed letter saved as a PDF file, indicate the category of membership for which the individual is being nominated ("Representative" or "Special Government Employee"), and contain an affirmative statement that the individual meets all aforesaid requirements. Cover letters for Representative nominations must also indicate why the individual should be considered for membership relative to the UAG's representational objectives, and be on the supporting organization's letterhead. Cover letters for Special Government Employee nominations must also identify the subject area(s) where the individual's expertise and/or consultative stature is nationally recognized relative to the UAG's advisory objectives. Nominations must be submitted in a single email attaching the cover letter, resume, and professional biography to HQ-UAGnoms@nasa.gov. Hard copies such as paper documents sent through postal mail will not be accepted.
