Amendment 13 to the Spiny Lobster Fishery Management Plan

The draft amendment currently addresses inconsistencies between State of Florida spiny lobster regulations and those in federal waters including options for endorsement, marking, and gear prohibitions for bully net gear in the exclusive economic zone (EEZ) off Florida. The amendment also addresses re-establishing the procedure for enhanced cooperative management protocol for roles of federal and State of Florida agencies for the management of spiny lobster. Additional options to address bag limits on board commercial bully netters and divers, degradable panels in lobster traps, and the definition of artificial habitat are also included. The measures are expected to

help management and enforcement of spiny lobster harvest by creating consistent regulations in state and federal waters.

During the scoping meetings, Council staff will present an overview of the amendment and will be available for informal discussions and to answer questions via webinar. Members of the public will have an opportunity to go on record to record their comments for consideration by the Council.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 3 days prior to the meeting.
