

in the Application, and relying on the representations and agreements contained in the Application, the NRC staff has determined that EDF is qualified to hold the ownership interests previously held by AREVA NP SAS, and that the transfers of ownership and operating interests to EDF, described in the Application, are otherwise consistent with applicable provisions of law, regulations, and previous NRC orders. These findings are subject to the conditions set forth below. The NRC staff further finds that: (1) The requested change of control will not be inimical to the common defense and security or to the health and safety of the public; and (2) the change of control will be in accordance with 10 CFR part 51 of the NRC's environmental regulations, and all applicable requirements have been satisfied.

The findings set forth above are supported by the NRC's Safety Evaluation Report issued with this Order.

III

Accordingly, pursuant to Sections 161b, 161i, 183, and 184 of the Act; 42 U.S.C. 2201(b), 2201(i), 2233, and 2234; and 10 CFR 70.36 and 110.50, IT IS HEREBY ORDERED that the Application regarding the indirect transfer of control over licenses listed above from AREVA SA to EDF is approved, subject to the following conditions:

1. With respect to the licenses listed above, EDF, as stated in the Application, will abide by all commitments and representations previously made by AREVA, Inc. These include, are not limited to, maintaining decommissioning records and financial assurance, implementing decontamination activities, and eventually decommissioning the site.

2. The commitments/representations made in the Application regarding reporting relationships and authority over safety and security issues and compliance with NRC requirements shall be adhered to and may not be modified without the prior written consent from the Director, Office of Nuclear Material Safety and Safeguards, or his designee.

IT IS FURTHER ORDERED that AREVA, Inc. at least one (1) business day before all actions necessary to accomplish the indirect transfer of control are completed shall so inform the Director of the Office of Nuclear Material Safety and Safeguards, in writing. If the necessary supporting actions have not been completed by March 31, 2018, this Order shall become null and void; provided, however, that, upon timely written application and for good cause shown, such completion date may be extended by further Order.

This Order is effective on issuance.

For further details with respect to this Order, see the initial Application listed in Section II above, and the Safety Evaluation Report supporting this action, which are available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible, electronically, through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room,

on the internet the NRC website <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR reference staff, by telephone, at 1-800-397-4209, 301-415-4737, or via email, to pdr@nrc.gov.

Dated and issued this 14th day of November, 2017.

For the Nuclear Regulatory Commission.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

Background

Under the provisions of the Paperwork Reduction Act of 1995 (44

U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 483, "Registration Certificate—*In Vitro* Testing With Byproduct Material Under General License." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 28, 2017 (82 FR 40809).

1. *The title of the information collection:* NRC Form 483, Registration Certificate—*In Vitro* Testing With Byproduct Material Under General License.

2. *OMB approval number:* 3150–0038.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 483.

5. *How often the collection is required or requested:* There is a one-time submittal of information to receive a validated copy of the NRC Form 483 with an assigned registration number. In addition, any changes in the information reported on the NRC Form 483 must be reported in writing to the NRC within 30 days after the effective date of the change.

6. *Who will be required or asked to respond:* Any physician, veterinarian in the practice of veterinary medicine, clinical laboratory, or hospital which desires a general license to receive, acquire, possess, transfer, or use specified units of byproduct material in certain *in vitro* clinical or laboratory tests.

7. *The estimated number of annual responses:* 6.

8. *The estimated number of annual respondents:* 6.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 1.12 hours.

10. *Abstract:* Section 31.11 of Title 10 of the *Code of Federal Regulations* (10 CFR), established a general license authorizing any physician, clinical laboratory, veterinarian in the practice of veterinary medicine, or hospital to possess certain small quantities of byproduct material for *in vitro* clinical or laboratory test not involving the internal or external administration of the byproduct material or the radiation therefrom to human beings or animals. Possession of byproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, veterinarian in the practice of veterinary

medicine, or hospital has filed the NRC Form 483 and received from the Commission a validated copy of the NRC Form 483 with a registration number. The licensee can use the validated copy of the NRC Form 483 to obtain byproduct material from a specifically licensed supplier. The NRC incorporates this information into a database which is used to verify that a general licensee is authorized to receive the byproduct material.

Dated at Rockville, Maryland, this 15th day of December, 2017.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.
