

revised plan will replace the plan previously approved in 2010. NOAA issues this notice of a public comment period for the revised plan under 15 CFR 921.33 (a).

The revised management plan outlines a strategic plan; administrative structure; research and monitoring, education, stewardship, wetland science and training programs of the reserve; resource protection and manipulation plans, restoration management plan; public access and visitor use plan; considerations for future land acquisition; and facility development to support reserve operations.

The San Francisco Bay Reserve takes an integrated approach to management, linking research, education, coastal training, and resource management functions. The reserve has outlined how it will manage administration and its core programs, providing detailed actions that will enable it to accomplish specific goals and objectives. Since the last management plan, the reserve has built out its core research programs and monitoring infrastructure; conducted an educational market analysis and needs assessment to understand current needs of teachers and underserved audiences; updated the coastal training program strategy and expanded the program partnerships, expanded stewardship program and developed resource management plans.

There will be no boundary change with the approval of the revised management plan. The management plan will serve as the guiding document for the 3,710-acre San Francisco Bay Reserve.

View the San Francisco Bay Reserve management plan revision on their website, at http://www.sfbaynerr.org/resource-library/reserve-plans-reports/sf-bay-nerr-management-plan_oct-25/, and provide comments to Christine Metzger, christinemetzger@sfsu.edu.
