Abstract: The Trends in Mathematics
and Science Study (TIMSS) is an
international assessment of fourth and
eighth grade students' achievement in
mathematics and science. Since its
inception in 1995, TIMSS has continued
to assess students every 4 years. The
United States will participate in TIMSS
2019 to continue to monitor the progress
of its students compared to that of other
nations and to provide data on factors
that may influence student
achievement. New in 2019, TIMSS will
be a technology-based assessment
conducted in an electronic format.
TIMSS is designed by the International
Association for the Evaluation of
Educational Achievement (IEA), and is
conducted in the U.S. by the National
Center for Education Statistics (NCES).
In preparation for the TIMSS 2019 main
study, in April-May 2017, U.S.

participated in a pilot study to assist in
the development of eTIMSS and, in
March through April 2018, U.S. will
participate in a field test to evaluate
new assessment items and background
questions. The TIMSS 2019 Main Study
data collection will take place from
April through May 2019, with
recruitment beginning in spring 2018.
This request is to conduct the TIMSS
2019 field test and to begin recruitment
of schools, teachers, and students for the
main study. In November 2017, NCES
will submit a request for the TIMSS
2019 Main Study data collection.
