BILLING CODE P

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the firms contributed importantly to the total or partial separation of the firms' workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

SUPPLEMENTARY INFORMATION:

Any party having a substantial interest in these proceedings may request a public hearing on the matter. A written request for a hearing must be submitted to the Trade Adjustment Assistance Division, Room 71030, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than ten (10) calendar days following publication of this notice. These petitions are received pursuant to section 251 of the Trade Act of 1974, as amended.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Preliminary Results of Changed Circumstances Reviews, and Intent To Revoke Antidumping and Countervailing Duty Orders in Part

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On October 6, 2017, the Department of Commerce (Commerce) received a request for revocation, in part, of the antidumping duty (AD) and countervailing duty (CVD) orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China (China) with respect to certain solar panels. We preliminarily determine that the *Orders* shall be revoked, in part, with respect to certain solar panels of a sufficiently small size, voltage, amperage, and wattage, among other characteristics, as described below. Commerce invites interested parties to comment on these preliminary results.

DATES: Applicable December 26, 2017.

SUPPLEMENTARY INFORMATION:

Background

On December 7, 2012, Commerce published AD and CVD orders on certain crystalline silicon photovoltaic cells, whether or not assembled into modules, from China.¹ On October 6, 2017, Pitsco, Inc. d/b/a/Pitsco Education (Pitsco), an importer of the subject merchandise, requested through a changed circumstances review revocation, in part, of the *Orders* pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.216(b), with respect to certain solar panels.² On October 13, 2017, SolarWorld Americas, Inc. (the petitioner) submitted a letter stating that it does not oppose the scope exclusion language proposed by Pitsco.³ From October 25, 2017, through November 8, 2017,⁴ Commerce consulted with both Pitsco and SolarWorld regarding revisions to the proposed exclusion language; specifically, Commerce suggested limiting the language to a description of the physical characteristics of the product and also expressed concerns regarding the dimensions indicated in the description.⁵ Accordingly, on November 10, 2017, Pitsco submitted revised exclusion language based on these consultations.⁶ On November 13, 2017, SolarWorld submitted a letter stating that it does not oppose the revised exclusion language submitted by Pitsco on November 10, 2017.⁷

On November 27, 2017, Commerce published the notice of initiation of the requested changed circumstances reviews.⁸ Because the statement

Scope of the Antidumping and Countervailing Duty Orders on Certain Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China

The merchandise covered by the orders is crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels and building integrated materials.

The orders cover crystalline silicon photovoltaic cells of thickness equal to or greater than 20 micrometers, having a p/n junction formed by any means, whether or not the cell has undergone other processing, including, but not limited to, cleaning, etching, coating, and/or addition of materials (including, but not limited to, metallization and conductor patterns) to collect and forward the electricity that is generated by the cell.

Merchandise under consideration may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, modules, laminates, panels, building-integrated modules, building-integrated panels, or other finished goods kits. Such parts that otherwise meet the definition of merchandise under consideration are included in the scope of the orders.

Excluded from the scope of the orders are thin film photovoltaic products produced from amorphous silicon (a-Si), cadmium telluride (CdTe), or copper indium gallium selenide (CIGS).

Also excluded from the scope of the orders are crystalline silicon photovoltaic cells, not exceeding 10,000 mm² in surface area, that are permanently integrated into a consumer good whose function is other than
