MHS GENESIS is the Department of Defense's (DoD) modernized electronic health record (EHR) and will provide access to authoritative clinical data sources, and over time will become the authoritative source of clinical data to support improved population health, patient safety, and quality of care to maximize medical readiness for the DoD. MHS GENESIS is expected to unify and increase accessibility of integrated, evidence-based healthcare delivery and decision-making. MHS GENESIS supports the availability of longitudinal medical records for over 9.6 million DoD beneficiaries and over 153,000 Military Health System (MHS) personnel globally. MHS GENESIS enables the application of standardized workflows, integrated healthcare delivery, and data standards for improved and secure electronic exchange of medical and patient data between the DoD and its external partners, including the Departments of Veterans Affairs (VA) and Health and Human Services (HHS) and private sector healthcare providers.
