SUPPLEMENTARY INFORMATION: In the **Federal Register** of September 21, 2017 (82 FR 44128), FDA gave notice that Akzo Nobel Surface Chemistry AB had filed a petition to amend Title 21 of the Code of Federal Regulations in part 573 Food Additives Permitted in Feed and

Drinking Water of Animals (21 CFR part 573) to provide for the safe use of glyceryl polyethylene glycol (15) ricinoleate as an emulsifier in animal food that does not include food for cats, dogs, vitamin premixes, or aquaculture.

Interested persons were originally given until October 23, 2017, to comment on the petitioner’s environmental assessment.

The environmental assessment was not placed on public display until October 13, 2017. On our own initiative, we are reopening the comment period to allow potential respondents to thoroughly evaluate and address pertinent environmental issues. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments without significantly delaying rulemaking on this important issue.

Dated: December 20, 2017.

Leslie Kux,

Associate Commissioner for Policy.

I. Background

Various statutes provide the Bureau of Indian Affairs (BIA) with authority to issue this regulation and for administering electric power utilities for the Colorado River, Flathead (Mission Valley Power), and San Carlos Indian irrigation projects. For example, see 5 U.S.C. 301; 25 U.S.C. 13; 25 U.S.C. 385c; 43 Stat. 475–76; 45 Stat. 210–13; 49 Stat. 1039–40; 49 Stat. 1822–23; 54 Stat. 422; 62 Stat. 269–73; 65 Stat. 254; 99 Stat. 319–20. Each of these power projects provides energy, transmission, and distribution of electrical services to customers in their respective service areas. BIA (or the contracting/ compacting Indian Tribe) provides oversight and limited technical assistance for power projects and conducts operations and maintenance of the distribution systems.

The regulations addressing BIA’s administration of the power utilities are at 25 CFR part 175, Indian Electric Power Utilities. These regulations were last updated in 1991.

II. Description of Changes

The revisions being proposed today are intended to make the regulations more user-friendly through plain language. The proposed rule would also update definitions, lengthen the time by which BIA must issue a decision on an appeal from 30 days to 60 days (by referring to 25 CFR 2.19(a)), and require publication of rate adjustments in the **Federal Register**.
