

foreclosed property for \$50,000) under paragraph (b) of § 1.597-1. * * *

Example 5. * * *

(ii) At the end of 2018, the Third-Party Price for the loans drops to \$400,000, and the Third-Party Price for each of the foreclosed properties remains at \$50,000. The fair market value of the loans at the end of Year 2 is their Expected Value, \$600,000 (\$400,000 Third-Party Price + \$200,000 (the amount of the loss if the loans were disposed of for the Third-Party Price × 33.33%)) (the Average Reimbursement Rate does not change).

BILLING CODE 4830-01-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2017-1109]

Drawbridge Operation Regulation; Columbia River, Vancouver, WA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulations.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Burlington Northern Santa Fe (BNSF) Railway Bridge across the Columbia River, mile 105.6, at Vancouver, WA. The deviation is necessary to accommodate replacement gears, shafts and bearings. This deviation allows the bridge to remain in the closed-to-navigation position during maintenance activities.

DATES: This deviation is effective from 8 a.m. to 3 p.m. on December 27, 2017.

ADDRESSES: The docket for this deviation, USCG-2017-1109 is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District; telephone 206-220-7282, email d13-pf-d13bridges@uscg.mil.

SUPPLEMENTARY INFORMATION: BNSF requested that the BNSF Swing Bridge

across the Columbia River, mile 105.6, remain closed to marine vessel traffic to install new swing gears, shafts and bearings. During this installation period, the swing span of the bridge will be in the closed-to-navigation position. The BNSF Swing Bridge, mile 105.6, provides 39 feet of vertical clearance above Columbia River Datum 0.0 while in the closed position.

The subject bridge operates in accordance with 33 CFR 117.5. This deviation allows the swing span of the BNSF Railway Bridge across the Columbia River, mile 105.6, to remain in the closed-to-navigation position, and need not open for maritime traffic from 8 a.m. to 3 p.m. on December 27, 2017. The bridge shall operate in accordance to 33 CFR 117.5 at all other times. Waterway usage on this part of the Columbia River includes vessels ranging from large ships to commercial tug and tow vessels to recreational pleasure craft including cabin cruisers and sailing vessels. Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will not be able to open for emergencies during this closure period, and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: December 21, 2017.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R09-OAR-2017-0383; FRL-9972-49-Region 9]

Approval of California Air Plan Revisions; Anti-Idling Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to

approve a revision to the California State Implementation Plan (SIP). This revision concerns emissions of volatile organic compounds (VOCs), oxides of nitrogen (NO_x) and particulate matter (PM) from the idling of diesel-powered trucks. We are approving portions of a state rule submitted by the California Air Resources Board (CARB) to regulate these emission sources under the Clean Air Act (CAA or the Act).

DATES: This rule will be effective on January 26, 2018.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R09-OAR-2017-0383. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <http://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Jeffrey Buss, EPA Region IX, (415) 947-4152, buss.jeffrey@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us" and "our" refer to the EPA.

I. Proposed Action

On September 29, 2017, the EPA proposed to approve subsections (c)(1)(A) and (c)(1)(B) of Title 13 California Code of Regulations (CCR) Section 2485, "Airborne Toxic Control Measure to Limit Diesel-Fueled Commercial Motor Vehicle Idling" (collectively, "Idling Restrictions"). The California Air Resources Board (CARB) adopted Section 2485 on September 1, 2006, and submitted the Idling Restrictions and other portions of Section 2485 to the EPA on December 9, 2011.¹

We proposed to approve these provisions because we determined that they comply with relevant CAA

¹ As described in the proposal, the EPA previously approved other portions of section 2485 into the SIP on June 16, 2016. 81 FR 39423, 39443.
