SUPPLEMENTARY INFORMATION: The LGA RNAV (GPS) RWY 13 procedure provides a de-conflicted approach procedure when weather or winds require LGA to land RWY 13. Without this procedure, when the weather minimums fall below 1,500 feet, and 3-mile visibility and use of an ILS is required, Newark (EWR), Teterboro (TEB), and LGA cannot operate at the same time. Traffic at one of the three airports must be stopped to permit the other two airports to operate. The FAA is proposing to use the RNAV procedure for approximately 1,500 operations annually (0.8 percent of all LGA landings) to de-conflict the New York metro airspace. The FAA reviewed the action and determined it to be categorically excluded from further environmental documentation according to FAA Order 1050.1F, Environmental Impacts: Policies and Procedures. The applicable categorical exclusion is section 5-6.5(i).

Issued in College Park, Georgia, on December 15, 2017.

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

SUMMARY: This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for iron and steel

These iron and steel components are not manufactured (from melting to coating) in the United States in sufficient and reasonably available quantities and of a satisfactory quality. This notice follows FHWA's November 20, 2017, notice finding that a Buy America waiver is appropriate for 33 specific iron and steel components of the GPA Project by adding new items to the list of waived products.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when satisfactory quality domestic steel and iron products are not sufficiently available (non-availability). This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for iron and steel components of eight RMG cranes that will be procured by GPA to increase intermodal capacity at the Garden City Terminal in Garden City, Georgia, due to non-availability.

On November 20, 2017, FHWA issued a Buy America waiver for 33
