SUPPLEMENTARY INFORMATION:

I. Background

A version of the CPS Unemployment Insurance (UI) Non-Filer Supplement was last collected in 2005 under an interagency agreement between the Department of Labor and the United States Census Bureau.

The UI Non-Filer Supplement will gather information on people who are unemployed but also on a subset of those who are not in the labor force. Information will be collected about UI participation and reasons for not participating. The supplement also contains questions about people's job search experience, such as information about jobs for which they have applied and whether they would accept a job similar to their last job but at lower pay. Additionally, this supplement contains questions about the job search process of unemployed individuals and the difficulties these seekers have in finding new employment.

Because this supplement is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the supplement. Comparisons between UI filers and non-filers will be possible across characteristics such as sex, race and ethnicity, age, and educational attainment.

UI benefits provide temporary financial assistance to the unemployed who meet certain eligibility criteria and can also help protect the economy during economic downturns. Work patterns have changed since the supplement was last collected in 2005, making updated information of

paramount importance. Data gathered in this supplement will help measure the effectiveness of current UI programs, identify possible shortcomings in existing UI programs, and assist policy makers in developing more effective policies.

II. Current Action

Office of Management and Budget clearance is being sought for a new OMB control number for the CPS UN Non-Filer Supplement to the CPS.

This collection is needed to provide the Nation with timely information about individuals who do not file for UI benefits and their reasons for not doing so. In addition, data from the supplement will provide a fuller picture about how the unemployed search for jobs and the hardships they face when doing so.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: New collection (Request for a new OMB control Number).
