II. Scope and Submission of Comments

The goal of this notice is to better inform FTA regarding current or potential regulatory and other policy areas, and procedures or actions that may slow or prevent the development, demonstration, deployment, and evaluation of automated transit buses and related technologies. For purposes of this notice, “bus” is defined broadly to consider a range of sizes, vehicle platforms and configurations, and passenger capacities, and could include both traditional and novel vehicle designs (e.g., full-size city buses, articulated buses, small shuttles, etc.). “Bus” also includes bus rapid transit.

FTA requests comments from stakeholders, including the disability community, concerning technologies spanning automation levels 3 through 5 as defined in the SAE standard J3016 201609 (see http://standards.sae.org/j3016_201609/) and as used in the National Highway Traffic Safety Administration *Automated Driving Systems (ADS): A Vision for Safety 2.0* guidance.

In particular, FTA seeks comments with respect to the following areas of interest:

A. Are there existing FTA statutes, regulations, or policies that may present a challenge or barrier to the development, demonstration, deployment, or evaluation of automated transit buses? If so, please specify or describe these challenges, and provide proposed resolution, if possible.

B. Are there other Federal statutes, regulations, or policies (e.g., Federal Motor Vehicle Safety Standards, etc.) that may present a challenge or barrier to the development, demonstration, deployment, or evaluation of automated transit buses? If so, please specify or describe these challenges, and provide proposed resolution, if possible.

C. Are there any specific regulatory barriers related to small business that DOT/FTA should consider, specifically those that may help facilitate small business participation in this emerging technology?

D. Are there other regulatory, policy, or legislative challenges or barriers not otherwise specified above, which may impede development, demonstration, deployment, or evaluation of automated transit buses? If so, please specify or describe these challenges, and provide proposed resolution, if possible.

Where applicable, indicate the level(s) of automation impacted by the statute, regulation, or policy. Please note FTA is not seeking comments pertaining to

systems without an automated driving aspect (e.g., driver warnings and alerts), unless the system is evolving to include automation levels 3 through 5 in the foreseeable future. Please also note that this notice is not seeking comments related to rail fixed guideway systems or personal rapid transit systems. Interested parties are requested to respond to this notice in writing as soon as possible but not later than March 2, 2018.

For information about the Federal Transit Administration, please refer to the FTA website at <https://www.transit.dot.gov/>.

Issued in Washington, DC, on January 10, 2018 under authority delegated in 49 CFR part 1.91.

K. Jane Williams,

Deputy Administrator.
