

five consecutive business days preceding the date on which the Exchange submits a certificate to the Options Clearing Corporation (“OCC”) for listing and trading. The Proposal would shorten the current “look back” period of five consecutive business days to three consecutive business days. The Exchange does not propose to amend any other criteria in Phlx Rule 1009 and the accompanying Commentary to list an option on the Exchange.

### III. Discussion and Commission’s Findings

After careful review of the proposed rule change, the Commission finds that the proposal is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange.<sup>7</sup> Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,<sup>8</sup> which requires that the rules of a national securities exchange be designed, among other things, to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest; and are not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

As noted above, although the Exchange proposes to shorten the look back period for listing options on the Exchange found in Phlx Rule 1009, Commentary .01(4)(i) from five consecutive business days<sup>9</sup> to three consecutive business days, it does not propose to change any other listing provision found in Phlx Rule 1009 and the accompanying Commentary, including the requirement of Phlx Rule 1009, Commentary .01(2) that the Exchange verify the number of

shareholders of a security underlying an option. The Exchange states that the proposed look back period of three consecutive business days is intended to correspond to the securities industry’s recent shortening of the settlement period from T+3 to the current T+2.<sup>10</sup> The Exchange represents that stock trades would clear within T+2 of their trade date (*i.e.*, within three consecutive business days) and therefore the number of shareholders could be verified within three consecutive business days.<sup>11</sup> This would facilitate options trading within four business days of an IPO (three consecutive business days plus the day the listing certificate is submitted to OCC).

The Exchange also represents that its surveillance technologies and procedures concerning manipulation provide adequate prevention or detection of rule or securities law violations in relation to the proposed shortened time frame, and specifically, that its existing trading surveillances are adequate to monitor the trading in the underlying security and subsequent trading of options.<sup>12</sup> The Commission notes the limited nature of the proposal to shorten the look back period of Phlx Rule 1009, Commentary .01(4)(i) from the current five consecutive business days to the proposed three consecutive business days. In addition, the Exchange represents that its surveillance program is comprehensive and adequate to monitor for manipulation of the underlying security and overlying option. The Commission also notes that it has not received any comments on the proposal, aside from the Exchange Letter.

The Commission finds that the proposal, coupled with the recent move to T+2 settlement, would facilitate transactions in securities, while providing customers safeguards comparable to those provided under the current five consecutive business day look back period. Accordingly, the Commission finds that the proposed rule change is consistent with the requirements of the Act, specifically the requirements that the rules of an

Exchange be designed to prevent fraudulent and manipulative acts and practices.

### IV. Conclusion

*It is therefore ordered that*, pursuant to Section 19(b)(2) of the Act,<sup>13</sup> that the proposed rule change (SR-Phlx-2017-75), be and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>14</sup>

Rule 17f-1

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget for extension and approval.

Rule 17f-1 (17 CFR 270.17f-1) under the Investment Company Act of 1940 (the "Act") (15 U.S.C. 80a) is entitled: "Custody of Securities with Members of National Securities Exchanges." Rule 17f-1 provides that any registered management investment company ("fund") that wishes to place its assets in the custody of a national securities exchange member may do so only under a written contract that must be ratified initially and approved annually by a majority of the fund's board of directors. The written contract also must contain certain specified provisions. In addition, the rule requires an independent public accountant to examine the fund's assets in the custody of the exchange member at least three times during the fund's fiscal year. The rule requires the written contract and the certificate of each examination to be transmitted to the Commission. The purpose of the rule is to ensure the safekeeping of fund assets.

Commission staff estimates that each fund makes 1 response and spends an average of 3.5 hours annually in complying with the rule's requirements. Commission staff estimates that on an annual basis it takes: (i) 0.5 hours for the board of directors<sup>1</sup> to review and ratify the custodial contracts; and (ii) 3 hours for the fund's controller to assist the fund's independent public auditors in verifying the fund's assets.

<sup>1</sup> Estimates of the number of hours are based on conversations with representatives of mutual funds that comply with the rule. The actual number of hours may vary significantly depending on individual fund assets. The hour burden for rule 17f-1 does not include preparing the custody contract because that would be part of customary and usual business practice.
