Utah BWR requests that the Commission declare that the Commission's licensing jurisdiction under the Federal Power Act (FPA) includes all of the project facilities identified in the license application as the "Hydro System," in particular, the penstock alignments there described as associated with the hydroelectric generating facilities, as more fully explained in the petition.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies

of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file

associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

[Project No. 12966–005; Docket No. EL18–56–000]

Utah Board of Water Resources; Notice Suspending Procedural Schedule

On December 11, 2017, the Commission issued notice that the license application for the proposed Lake Powell Pipeline Project No. 12966 is accepted for filing, soliciting motions to intervene and protests, ready for environmental analysis, and soliciting comments, recommendations, terms and conditions, and prescriptions. The notice established a deadline of 60 days from issuance for initial filings and 105 days from issuance for reply comments.

On December 27, 2017, Utah Board of Water Resources (Utah BWR), applicant for the proposed Lake Powell Pipeline Project, filed a petition for declaratory order (petition) pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, 18 CFR 385.207(a)(2). Utah BWR requests that the Commission declare that the Commission's licensing jurisdiction under the Federal Power Act (FPA) includes all of the project facilities identified in the license application as the "Hydro System," in particular, the penstock alignments there described as associated with the hydroelectric

generating facilities. Together with the petition, Utah BWR filed a motion to suspend the procedural schedule for the licensing proceeding until the Commission rules on the petition.

The Commission is requesting comments on the petition by separate notice. Utah BWR asserts that the Commission's resolution of the jurisdictional issues may affect the status under sections 4(e) and 33 of the FPA of any preliminary conditions provided by the Bureau of Land Management (BLM) for the 50 miles of penstock alignments in the Hydro System that would traverse BLM lands using the Southern Route, or provided by the Bureau of Indian Affairs (BIA) for the 16.5 miles of penstock alignments in the Hydro System that would traverse the Kaibab Indian Reservation under the alternative route. To avoid possible confusion regarding these preliminary conditions, Utah BWR's request to suspend the procedural schedule is granted, effective immediately, until after the Commission issues a decision on the petition. Therefore, the deadline for filing motions to intervene and protests, comments, recommendations, terms and conditions, and prescriptions is extended to 60 days after issuance of a Commission decision on the petition, and the deadline for filing reply comments is extended to 105 days after issuance of a Commission decision on the petition.
