DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Highly Migratory Species Dealer Reporting Family of Forms

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before March 26, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW,

Washington, DC 20230 (or via the internet at pracomment@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Dianne Stephan, Atlantic Highly Migratory Species Management Division, National Marine Fisheries Service, 55 Great Republic Drive, Gloucester, MA 01930, (978) 281-9260 or Dianne.Stephan@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. NMFS must also promulgate regulations, as necessary and appropriate, to carry out obligations the United States (U.S.) undertakes internationally regarding tuna management through the Atlantic Tunas Convention Act (ATCA, 16 U.S.C. 971 *et seq.*).

This collection serves as a family of forms for Atlantic highly migratory species (HMS) dealer reporting, including purchases of HMS from domestic fishermen, and the import, export, and/or re-export of HMS, including federally managed tunas, sharks, and swordfish.

Transactions covered under this collection include purchases of Atlantic HMS from domestic fishermen; and the import/export of all bluefin tuna, frozen bigeye tuna, southern bluefin tuna or swordfish under the HMS International Trade Program, regardless of geographic area of origin. This information is used to monitor the harvest of domestic fisheries, and/or track international trade of internationally managed species.

The domestic dealer reporting covered by this collection includes weekly electronic landing reports and negative reports (*i.e.*, reports of no activity) of Atlantic swordfish, sharks, bigeye tuna, albacore, yellowfin, and skipjack tunas (collectively referred to as BAYS tunas), and biweekly and electronic daily landing reports for bluefin tuna, including tagging of individual fish. Because of the recent development of an individual bluefin quota (IBQ) management system (RIN 0648-BC09), electronic entry of IBQ-related landing data is required for Atlantic bluefin tuna purchased from

Longline and Purse seine category vessels. NMFS intends to consider integrating the electronic dealer reporting for bluefin tuna and electronic reporting for the IBQ system; however, at this time, dealers must submit limited bluefin tuna landings data to both NMFS systems for purse seine and pelagic longline vessels.

International trade tracking programs are required by both the International Commission for the Conservation of Atlantic Tunas (ICCAT) and the Inter-American Tropical Tuna Commission (IATTC) to account for all international trade of covered species. The U.S. is a member of ICCAT and IATTC and required by ATCA and the Tunas Convention Act (16 U.S.C. 951 *et seq.*, consecutively) to promulgate regulations as necessary and appropriate to implement ICCAT and IATTC recommendations. These programs require that a statistical document or catch document accompany each export from and import to a member nation, and that a re-export certificate accompany each re-export. The international trade reporting requirements covered by this collection include implementation of catch document, statistical document, and re-export certificate trade tracking programs for bluefin tuna, frozen bigeye tuna, and swordfish. An electronic catch document program for bluefin tuna (EBCD) was recommended by ICCAT and implemented by the United States in 2016 (0648-BF17). U.S. regulations implementing ICCAT statistical document and catch document programs require statistical documents and catch documents for international transactions of the covered species from all ocean areas, so Pacific imports and exports must also be accompanied by statistical documents and catch documents. Since there are statistical document programs in place under other international conventions (*e.g.*, the Indian Ocean Tuna Commission), a statistical document or catch document from another program may be used to satisfy the statistical document requirement for imports into the United States.

Dealers who internationally trade Southern bluefin tuna are required to participate in a trade tracking program to ensure that imported Atlantic and Pacific bluefin tuna will not be intentionally mislabeled as "southern bluefin" to circumvent reporting requirements. This action is authorized under ATCA, which provides for the promulgation of regulations as may be necessary and appropriate to carry out ICCAT recommendations.

In addition to statistical document, catch document, and re-export certificate requirements, this collection includes biweekly reports to complement trade tracking statistical documents by summarizing statistical document data and collecting additional economic information.

II. Method of Collection

Methods of submission include electronic, mail, fax, and tagging of fish.

III. Data

OMB Control Number: 0648–0040.
Form Number(s): None.

Type of Review: Regular submission (request for extension of a currently approved information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 9,585.

Estimated Time per Response: 5 minutes each for catch document, statistical document, and re-export certificate; 15 minutes for catch document/statistical document/re-export certificate validation by government official; 120 minutes for authorization of non-governmental catch document/statistical document/re-export certificate validation; 2 minutes for daily Atlantic bluefin tuna landing reports; 3 minutes for daily Atlantic bluefin tuna landing reports from pelagic longline and purse seine vessels; 1 minute for Atlantic bluefin tuna tagging; 15 minutes for biweekly Atlantic bluefin tuna dealer landing reports; 15 minutes for HMS international trade biweekly reports; 15 minutes for weekly electronic HMS dealer landing reports (e-dealer); 5 minutes for negative weekly electronic HMS dealer landing reports (e-dealer); 15 minutes for voluntary fishing vessel and catch forms; 2 minutes for provision of HMS dealer email address.

Estimated Total Annual Burden Hours: 39,961.

Estimated Total Annual Cost to Public: \$12,570 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information

on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 17, 2018.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Assessment of the Social and Economic Impact of Hurricanes and Other Climate Related Natural Disasters on Commercial and Recreational Fishing Industries in the Eastern, Gulf Coast and Caribbean Territories of the United States

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before March 26, 2018.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The NOAA Fisheries Office of Science and Technology's Economics and Social Analysis Division seeks to conduct

assessments of the social and economic impacts from hurricanes and other climate related natural disasters on commercial and recreational fishing industries in the eastern, gulf coast and Caribbean territories of the United States. It seeks to collect data on the immediate and long-term disruption and impediments to recovery of normal business practices to the commercial and recreational fishing industries. Data would be collected from commercial and recreational for hire fishermen, fish dealers, bait and tackle stores, marinas and other businesses dependent on the fishing industry for livelihood. The data will improve research and analysis of potential fishery management actions by understanding the immediate effects and/or long-term compounding effects of natural disasters on communities most dependent on commercial and recreational fishing. This data collection is consistent with the Magnuson-Stevens Fishery Conservation and Management Act and essential for implementing National Standard 8, which calls for the sustained participation of fishing communities.

II. Method of Collection

This information will be collected by telephone, on-line, and in person.

III. Data
