The licensee wants to extend the term so it expires on December 31, 2026. The licensee states it is ready to install the first phase of the licensed project and that the extension is warranted because installation will result in operational data, which will inform the subsequent phases of the pilot license, as well as relicensing the project. Concurrent with the licensee's request for a five-year extension, the licensee filed a Notice of Intent (NOI) to relicense the pilot project and a request that the Commission waive certain deadlines, as required by the Commission's regulations for filing the Pre-Application Document. Should the Commission grant the licensee's request for a five-year extension of its licensee term, the Commission would dismiss the licensee's NOI and request for waiver.
