

## Annexes, page 3

75 mm or more but not over 82 mm by 139 mm or more but not over 143 mm;

- (4) off-grid and portable CSPV panels, whether in a foldable case or in rigid form containing a glass cover, where the panels have the following characteristics:
    - (A) a total power output of 100 watts or less per panel;
    - (B) a maximum surface area of 8,000 cm<sup>2</sup> per panel;
    - (C) do not include a built-in inverter;
    - (D) where the panels have glass covers, such panels must be in individual retail packaging (for purposes of this provision, retail packaging typically includes graphics, the product name, its description and/or features, and foam for transport);
  - (5) 3.19 watt or less solar panels, each with length of 75 mm or more but not over 266 mm and width of 46 mm or more but not over 127 mm, with surface area of 338 cm<sup>2</sup> or less, with one black wire and one red wire (each of type 22 AWG or 24 AWG) not more than 206 mm in length when measured from panel edge, provided that no such panel shall contain an internal battery or external computer peripheral ports;
  - (6) 27.1 watt or less solar panels, each with surface area less than 3,000 cm<sup>2</sup> and coated across the entire surface with a polyurethane doming resin, the foregoing joined to a battery charging and maintaining unit, such unit which is an acrylonitrile butadiene styrene (“ABS”) box that incorporates a light emitting diode (“LED”) by coated wires that include a connector to permit the incorporation of an extension cable.
- (d) Any goods covered by this note may also be excluded from the application of relief if they are covered by a determination by the United States Trade Representative (“USTR”) published in the *Federal Register* that such goods should be exempt from the application of any rate of duty or tariff-rate quota otherwise imposed on goods described in the provisions of this note. Such a determination by the USTR under this subdivision may exempt specific additional CSPV cells or modules when entered from all countries or when entered from enumerated countries only, or may modify the product descriptions in subdivision (c) of this note. The USTR is authorized to modify or terminate any such determination during the effective period of the subheadings specified in the first sentence of subdivision (a) of this note and to specify, subsequent to the effective date specified in this note, that such CSPV cells and modules will be considered “goods excluded from the application of relief” upon publication by the USTR of a notice in the *Federal Register*. Such “goods excluded from the application of relief” shall not be counted toward any tariff-rate quota quantities specified for any quota period.

## Annexes, page 4

- (e) (i) For purposes of subheading 9903.45.21, the aggregate annual quantity of goods eligible to enter during any period enumerated herein shall not exceed the volume level set forth in such subheading, where 1 gigawatt equals 1,000 megawatts.
- (ii) Any importer entering CSPV cells under subheading 9903.45.21 shall report the electricity power output attributable to such cells to the satisfaction of U.S. Customs and Border Protection (“Customs”) and shall provide such information as Customs may require in order to permit the administration of this subheading. Such an entry shall constitute a certification by that importer of the power output attributable to the CSPV cells described therein. Importers are likewise directed to report the electricity power output attributable to CSPV cells entered under subheading 9903.45.22 to the extent that and in such form as Customs may require.
- (f) For purposes of subheading 9903.45.22 to this subchapter, the duty rate in the Rates of Duty 1-General subcolumn and the Rates of Duty 2 column for all goods entered under such subheading, and not the product of a country enumerated in subdivision (b) of this note, shall be as follows, with the duty rates set forth herein applied in addition to those applicable under subheading 8541.40.60:

If entered during the period from  
February 7, 2018 through February 6, 2019 ..... 30%

If entered during the period from  
February 7, 2019 through February 6, 2020 ..... 25%

If entered during the period from  
February 7, 2020 through February 6, 2021 ..... 20%

If entered during the period from  
February 7, 2021 through February 6, 2022 ..... 15%.

- (g) For purposes of subheading 9903.45.25 to this subchapter, the term “modules” shall include the following goods provided for in subheading 8541.40.60 of the tariff schedule: a module is a joined group of CSPV cells, as such cells are defined in subdivision (c) of this note, regardless of the number of cells or the shape of the joined group, that are capable of generating electricity. Also included as a “module” are goods each known as a “panel” comprising a CSPV cell that has undergone any processing, assembly, or interconnection (including, but not limited to, assembly into a laminate). Such CSPV cells assembled into modules or made up into panels include goods of a type reported for statistical purposes under statistical reporting number 8541.40.6020. Such goods also include (i) CSPV cells which are presented attached to inverters or batteries of subheading 8501.61.00 or 8507.20.80, respectively; and (ii) CSPV cells classifiable as DC generators of subheading 8501.31.80.
