

respondents may request confidential treatment of such information pursuant to 47 CFR 0.459 of the Commission's rules.

*Needs and Uses:* The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three year clearance from OMB. Under 47 U.S.C. 276(b)(1)(C), the Bell Operating Companies (BOCs) are required to publicly disclose changes in their networks or new network services. Sections 276(b)(1)(C) directs the Commission to "prescribe a set of nonstructural safeguards for BOC payphone service to implement the provisions of paragraphs (1) and (2) of subsection (a), which safeguards shall, at a minimum, include the nonstructural safeguards equal to those adopted in the Computer Inquiry-III (CC Docket No. 90-623) proceeding." The Computer Inquiry-III network information disclosure requirements specifically state that the disclosure would occur at two different points in time. First, disclosure would occur at the make/buy point: When a BOC decides to make for itself, or procure from an unaffiliated entity, any product whose design affects or relies on the network interface. Second, a BOC would publicly disclose technical information about a new service 12 months before it is introduced. If the BOC can introduce the service within 12 months of the make/buy point, it would make a public disclosure at the make/buy point. In no event, however, would the public disclosure occur less than six months before the introduction of the service. While the scope and applicability of the Computer III safeguards has changed with the Commission's 2015 decision regarding forbearance from enforcement of the Computer III requirements (Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. Section 160(c) from Enforcement of Obsolete ILEC Regulations that Inhibit Deployment of Next Generation Networks, Memorandum Opinion and Order, FCC 15-166 (2015)), these are minimum requirements under section 276(b)(1)(C). Without information disclosures, the industry would be unable to ascertain whether the BOCs are designing new network services or changing network technical specifications to the advantage of their own payphones, or in a manner that might disadvantage BOC payphone competitors. These requirements ensure that BOCs comply with their obligations under the Telecommunications Act of 1996.
