

The proposed project will be closed-loop. Water to initially fill the reservoirs will be diverted from Deer Creek via a temporary diversion, pump system, and pipeline. Required make-up water will be provided from a new well that will be drilled near the lower reservoir. The proposed project would consist of upper and lower reservoirs, a penstock connecting the two reservoirs, a powerhouse, a transmission line, and an access road to each reservoir. Both reservoirs would be formed by earthen and/or roller compacted concrete embankments with a maximum height of 50–75 feet, and would be lined with impervious geotextile or pavement. The lower reservoir would have a storage capacity of 4,050 acre-feet at its normal maximum water surface elevation of 6,000 feet, and surface area of 80 acres. The upper reservoir would have a storage capacity of 4,050 acre-feet at its normal maximum water surface elevation of 7,125 feet and surface area of 50 acres. Water would be conveyed from the upper reservoir to the lower reservoir via a 5,000-foot-long, 18-foot diameter steel-lined penstock. The powerhouse would contain three Ternary turbine generator units with a total installed capacity of 400 MW. Project power would be transmitted through either a new single circuit 230-kilovolt (kV) transmission line from the proposed powerhouse 0.4 miles northwest to a new substation on the planned Energy Gateway West 500-kV transmission line, or via a new 230-kV transmission line running 16 miles north to PacifiCorp's Windstar substation.

The estimated average annual generation of the project would be 1,300 gigawatt-hours.

[Docket No. CP18–69–000]

Tristate NLA, LLC; Notice of Petition for Declaratory Order

Take notice that on January 26, 2018, Tristate NLA, LLC (Tristate), 9901 Valley Ranch Parkway East, Suite 2000, Irving, Texas 75063, filed in Docket No. CP18–69–000 a petition for declaratory order pursuant to Rule 207 of the Commission's Rules of Practice and Procedure (18 CFR 385.207), seeking a ruling that upon the abandonment and sale to Tristate of approximately 189.8 miles of various diameter pipelines and appurtenant facilities proposed by Gulf South Pipeline Company, LP (Gulf South) in Docket No. CP18–66–000 approximately (i) 155.8 miles of pipelines and appurtenant facilities will perform a gathering function, and therefore will be exempt from the Commission's jurisdiction pursuant to section 1(b) of the Natural Gas Act (NGA); (ii) 15.2 miles of pipelines and appurtenant facilities will be operated as Hinshaw, and therefore will be exempt from the Commission's jurisdiction pursuant to section 1(c) of the NGA; and (iii) 18.8 miles as intrastate pipelines subject to the jurisdiction of the Texas Railroad Commission, all as more fully set forth in the petition which is on file with the

Commission and open to public inspection.

The filing may also be viewed on the web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208–3676, or TTY, contact (202) 502–8659.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit five copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit original and five copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on March 1, 2018.

Dated: February 8, 2018.
