SUPPLEMENTARY INFORMATION: Thirty-three systems were identified for rescindment from the SEC's Privacy Act systems of records inventory. SORNs were identified for rescindment for one of four reasons: The records (1) are not Privacy Act records; (2) will be maintained as part of a new or modified system of records; (3) are duplicative, and covered by another SEC system of records; or (4) are obsolete and no longer maintained by the SEC. A description of each rescindment justification, the applicable SORNs, and an account of what happened to the records is as follows:

1. Not a Privacy Act System of Records

Mere maintenance of personal information about an individual is not enough to create a Privacy Act system of records. To satisfy the elements of a system of records, there must be (1) a group of records; (2) under the control of a government agency; and (3) those records must be retrieved by a name or other personal identifier. When one condition is no longer met, the collection ceases to qualify as a system of records. Accordingly, the following SORNs were identified for rescindment as they no longer qualify as a Privacy Act system of records.

1. SEC-12: Hearings, Proceedings and Studies. These records are no longer retrieved by a personal identifier. Records are now retrieved using a date or the name of an event.

2. SEC-13: No-action and Interpretative Letters. These records are no longer retrieved by a personal identifier. Records are now retrieved by company name and law firm name.

3. SEC-21: Division of Investment Management Correspondence and Memoranda Files. These records are no longer retrieved by a personal identifier. Records are now retrieved by date, title, or company name.

4. SEC-27: Name-Relationship Search Index (NRSI). Under the Privacy Act, a record is defined as "any item, collection, or grouping of information

about an individual that is maintained by an agency.” Since 2000, the NRSI has stopped maintaining records on individuals. NRSI is used as a search tool, to search records in other SEC systems; it does not store or maintain data within the system.

2. Maintained as Part of a New or Modified Systems of Records

In accordance with the directive of OMB, “if records in a system of records will be combined with another system of records or maintained as part of a new system of records, [agencies shall draft a] notice of rescindment [and] shall direct members of the public to the SORN for the system that will include the relevant records.” Accordingly, the following SORNs were identified for rescindment. The records will be maintained as part of a new or modified system of records as described below:

1. SEC-01: Registration Statements Filed Pursuant to Provisions of the Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, and Investment Company Act of 1940. 3. Duplicative of Another SEC SORN

OMB requires that each agency provide assurance that systems of records do not duplicate any existing agency or government-wide systems of records. Accordingly, the following SORNs were identified for rescindment.

1. SEC-23: Staff Time and Activity Tracking System (STATS). The records in SEC-23 are duplicative of and share the same purpose as the records in SORN SEC-15: Payroll, Attendance, Retirement and Leave Records, 75 FR 17978 (April 8, 2010).

2. SEC-25: Office of Public Affairs, Policy Evaluation and Research Records. The following records in SEC-25 are no longer used or maintained by the Office of Public Affairs and are

recommended for elimination from the notice: Speeches by Commissioners and other Commission officials. The remaining item in the categories of records is a contact list, which contains the names, telephone numbers and addresses of news reporters and editors. The contact list is essential and necessary in order to conduct official business and is duplicative of records maintained in SEC-56: Mailing, Contact and Other Lists, 74 FR 36281 (July 22, 2009).

3. SEC-34: Administrative Proceedings Records Cards. The records in SEC-34 are duplicative of and share the same purpose as the records in SORN SEC-36: Administrative Proceeding Files, 79 FR 69894 (November 24, 2014).

4. SEC-53: Automated Emergency Notification System. The records in SEC-53 are duplicative of the records in SORN SEC-51: Emergency Contingency Plan System, 68 FR 23168 (April 30, 2003).

5. SEC-59: Office of Interpretation and Guidance Log; Office of Broker-Dealer Finances NRSRO Log; Office of Financial Responsibility Log. The records related to broker-dealer finances were consolidated in to the new SORN SEC-70. All remaining records in SEC-59 are duplicative of and share the same purpose as the records in SORN SEC-56: Mailing, Contact and Other Lists, 74 FR 36281 (July 22, 2009).

4. Obsolete Systems

The Privacy Act provides that an agency may only collect or maintain in its records information about individuals that is relevant and necessary to accomplish a purpose that is required by a statute or executive order. If a system of records is comprised of records that no longer meet this standard, the Privacy Act may require agencies to stop maintaining the system and expunge the records in accordance with the requirements in the SORN and the applicable record retention or disposition schedule approved by the National Archives and Records Administration. System managers have deemed the following systems obsolete and have declared that

the records are no longer relevant to accomplish an agency mission/purpose. Accordingly, the following SORNs were identified for rescindment:

1. SEC-22: Executive/Congressional Personnel Referrals
2. SEC-26: Confidential Treatment Request Imaging System
3. SEC-35: Securities Violations Records and Bulletin
4. SEC-44: Ridesharing System
