

webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366; email: julia.byrd@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. The product of the SEDAR webinar series will be a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment webinar are as follows:

1. Participants will continue discussions to develop population models to evaluate stock status, estimate population benchmarks, and project future conditions, as specified in the Terms of Reference.
2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.
3. Participants will prepare a workshop report and determine whether the assessment(s) are adequate for submission for review.

Although non-emergency issues not contained in this agenda may come

before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 5 business days prior to the meeting.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Southeast Region Vessel and Gear Identification Requirements.

OMB Control Number: 0648-0358.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 7,825.

Average Hours per Response: Vessel marking: 45 minutes. Gear marking: Aquacultured live rocks, 10 seconds each; golden crab traps, 2 minutes each; spiny lobster traps, 7 minutes each; sea bass pots, 16 minutes each; and mackerel gillnets, and buoy gear, 20 minutes each.

Burden Hours: 51,070.

Needs and Uses: The National Marine Fisheries Service (NMFS) Southeast Region manages the U.S. fisheries in the exclusive economic zone of the Caribbean, Gulf of Mexico, and South Atlantic regions under various fishery management plans (FMPs). The regional fishery management councils prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens

Act). The regulations implementing the FMPs are located at 50 CFR part 622.

The recordkeeping and reporting requirements at 50 CFR part 622 form the basis for this collection of information. The NMFS Southeast Region requires that all permitted fishing vessels must mark their vessel with the official identification number or some form of identification. A vessel's official number, under most regulations, is required to be displayed on the port and starboard sides of the deckhouse or hull, and weather deck. In addition, certain fisheries are required to display their assigned color code. The official number and color code identify each vessel and should be visible at distance from the sea and in the air. These markings provide law enforcement personnel with a means to monitor fishing, at-sea processing, and other related activities, to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying official number is used by NMFS, the United States Coast Guard, and other marine agencies in issuing violations, prosecutions, and other enforcement actions. Vessels that are authorized for particular fisheries are readily identified, gear violations are more readily prosecuted, and this allows for more cost-effective enforcement.

In addition to vessel marking, requirements that fishing gear be marked are essential to facilitate enforcement. The ability to link fishing gear to the vessel owner is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Act. The marking of fishing gear is also valuable in actions concerning damage, loss, and civil proceedings. The requirements imposed in the Southeast Region are for coral aquacultured live rock; golden crab traps; mackerel gillnet floats; spiny lobster traps; black sea bass pots; and buoy gear.

Affected Public: Business and other for profit organizations; individuals and households.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.
