

29 CFR 1926.1212—Employee Participation

29 CFR 1926.1212(a)—Consult With Employees/Authorized Representatives on Development and Implementation of a Written Program

Paragraph 1212(a) requires employers to consult with affected employees and their authorized representatives in the development and implementation of the written permit space program required by § 1926.1203.

29 CFR 1926.1212(b)—Employee Access

Paragraph 1212(b) requires that affected employees and their authorized representatives have access to all information developed under this standard. Other sections of this standard already specifically require that employers make information available to employees and their representatives. These provisions include §§ 1926.1203(d) (written program); 1203(e)(1)(v) and (e)(2)(ix) (alternate procedure certification); 1203(g) (reclassification certification); 1204(e)(6) (monitoring and testing results); 1205(c) (completed permit); and 1207(d) (training records).

29 CFR 1926.1213—Disclosure

Paragraph 1213 requires an employer, who must retain documentation under the Standard, to make this information available to the Secretary of Labor, or a designee, upon request. The request from the Secretary or the Secretary's designee (for example, OSHA) may be either oral or written.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency requests approval for an adjustment increase of 5,589 burden hours (from 654,514 to 660,103) associated with training records. This increase is offset by a requested

decrease in burden hour time for a clerical employee to generate a training record for an existing employee (from 3 minutes to generate and maintain the record to 1 minute to maintain the record). The request seeks approval to maintain all other previously approved burden hours. The Agency also requests approval to maintain \$1,017,859 in Item 13 costs for signs, tags and gas monitors.

Type of Review: Extension of a currently approved collection.
