

to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Craig Cockrell at 301-427-8503, at least 7 days prior to the meeting. A NMFS representative will attempt to structure the meeting so that all attending members of the public will be able to comment if they so choose, regardless of the controversial nature of the subject matter. If attendees do not respect the ground rules they will be asked to leave the scoping meeting or conference call.

Because the rulemakings overlap for some gear types, the public scoping meetings being held in Panama City, FL, Manteo, NC, and Manahawkin, NJ will be held in conjunction with public scoping meetings for Amendment 11 to the 2006 Consolidated Atlantic HMS FMP (shortfin mako shark management measures). The Amendment 11 presentation will likely be given first unless polling of the audience indicates another approach is appropriate. After each presentation, public comment for that issue will be received. Meeting attendees interested in this issue are encouraged to show up at the beginning of the meeting to help determine the order of the presentations. The second presentation will not start any later than 6 p.m.

The process of developing a regulatory action is expected to take approximately two years. In addition to future HMS Advisory Panel input, public comment and future analyses, there are other relevant events anticipated that may impact the development of this regulatory action, including implementation of a quota rule for Atlantic bluefin tuna and North Atlantic albacore, the three-year review of the IBQ program, and the ICCAT annual meeting in November 2018.

Until the draft environmental impact analysis and proposed rule are finalized or until other regulations are put into place, the current regulations remain in effect.
