SUPPLEMENTARY INFORMATION: Section 1320.8(d), Title 5, Code of Federal Regulations, requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies two information collection

requests that PHMSA will submit to OMB for renewal. The following information is provided for each information collection: (1) Title of the information collection; (2) OMB control number; (3) Current expiration date; (4) Type of request; (5) Abstract of the information collection activity; (6) Description of affected public; (7) Estimate of total annual reporting and recordkeeping burden; and (8) Frequency of collection. PHMSA will request a three-year term of approval for each information collection activity. PHMSA requests comments on the following information collections:

1. *Title:* Customer-Owned Service Lines.

OMB Control Number: 2137-0594.

Current Expiration Date: 5/31/2018.

Type of Request: Renewal of a currently approved information collection.

Abstract: This information collection request requires operators of gas service lines who do not maintain their customers' buried piping between service lines and building walls or gas utilization equipment to send written notices to their customers prescribing the proper maintenance of these gas lines and of the potential hazards of not properly maintaining these gas lines. Operators also must maintain records that include a copy of the notice currently in use and evidence that notices were sent to customers within the previous three years. The purpose of the collection is to provide the Office of Pipeline Safety with adequate information about how customer-owned service lines are being maintained to prevent the potential hazards associated with not maintaining the lines. Examples of sufficient notification include a prepared notification with the customer's bill.

Affected Public: State and local governments.

Annual Reporting and Recordkeeping Burden:

Estimated number of responses: 550,000.

Estimated annual burden hours: 9,167.

Frequency of Collection: On occasion.

2. *Title:* Pipeline Safety: Public Awareness Program.

OMB Control Number: 2137-0622.

Type of Request: Renewal of a currently approved information collection.

Abstract: The Federal Pipeline Safety Regulations require each operator to develop and implement a written continuing public education program that follows the guidance provided in the American Petroleum Institute's Recommended Practice RP 1162. Upon

request, operators must submit their completed programs to PHMSA or, in the case of an intrastate pipeline facility operator, the appropriate state agency. The operator's program documentation and evaluation results must also be available for periodic review by appropriate regulatory agencies (49 CFR 192.616 and 195.440). The purpose of the collection is to establish communications and provide information necessary to enhance public understanding of how pipelines function and the public's role in promoting pipeline safety. The timeframes for developing programs are 23 hours annually per operator.

Affected Public: Operators of Natural Gas and Hazardous Liquid Pipelines.

Estimated number of responses: 22,500.

Estimated annual burden hours: 517,480 hours.

Frequency of collection: On occasion. Comments are invited on:

(a) The need for the renewal and revision of these collections of information for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued in Washington, DC, on March 1, 2018, under authority delegated in 49 CFR 1.97.
