BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval of a new information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on December 15, 2017.

DATES: Written comments should be submitted by April 11, 2018.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

FOR FURTHER INFORMATION CONTACT: Barbara Hall at (940) 594-5913, or by email at: Barbara.L.Hall@faa.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2120-0746.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Form Numbers: There are no FAA forms associated with this generic information collection.

Type of Review: Renewal of a generic information collection.

Background: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Respondents: Approximately 11,000 Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Frequency: Once per request.

Estimated Average Burden per Response: 10 minutes.

Estimated Total Annual Burden:
1,833 hours.

Issued in Fort Worth, TX, on March 2, 2018.

Barbara Hall,

FAA Information Collection Clearance
Officer, IT Enterprises Business Services
Division, ASP-110.

Petition for Exemption

Docket No.: FAA-2018-0095.

Petitioner: Textron Aviation Inc.

Section(s) of 14 CFR Affected:
§ 25.981(b).

Description of Relief Sought:
Petitioner is seeking relief from 14 CFR 25.981(b), which states no fuel tank fleet average flammability exposure on an airplane may exceed three percent of the flammability exposure evaluation time (FEET) as defined in appendix N to part 25, or that of a fuel tank within the wing of the airplane model being evaluated, whichever is greater. If the wing is not a conventional unheated aluminum wing, the analysis must be based on an assumed equivalent conventional unheated aluminum wing tank. Specifically, petitioner requests relief for the center portion of the wing fuel tank that is covered by an aerodynamic fairing on the Textron Aviation Model 700 airplane.
