SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency’s estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that

employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Guidance on Expanded Access to TSCA Confidential Business Information

ICR number: EPA ICR No. 2570.01.

OMB control number: OMB Control No. 2070—[new].

ICR status: This ICR addresses a new information collection activity. Under the PRA, an Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR addresses the content and form of the statements of need and agreements required under TSCA section 14(d)(4), (5), and (6), which are described in the three draft guidance documents that have been developed to implement the new authorities in TSCA section 14(d)(4), (5), and (6), and include some basic logistical information on where and how to submit requests to EPA. Making a request for access to TSCA CBI is a voluntary activity, but is required in order to gain such access under TSCA section 14(d).

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14.8 hours and cost about \$868 per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/affected entities: Entities potentially affected by this ICR are mainly government employees (federal, state, local, tribal), as well as medical professionals, such as doctors and nurses.

Estimated total number of potential respondents: 6.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 89 hours.

Estimated total annual costs: \$5,204.11. This includes an estimated burden cost of \$5,204.11 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

The ICR package is being submitted to OMB for review and approval pursuant to 5 CFR 1320.10.

III. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.10. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
