SUPPLEMENTARY INFORMATION:**I. Background and Purpose**

On February 8, 2018, we published a request for comments entitled, "Regulated Navigation Areas; Harbor

Entrances Along the Coast of Northern California" at 83 FR 5592. The comment period ended on March 12, 2018. The Coast Guard did not receive any comments on the original request for comments and has decided to re-open the comment period to provide additional opportunity for informed public comment. The Coast Guard will consider any comments that are received by the agency after the original March 12th closing date, but before the publication of this notice reopening the comment period.

II. Information Requested

As discussed in the original published request for comment, the Coast Guard seeks comments and information for agency consideration and to inform any future establishment of RNAs that would create bar closure conditions as well as regulate vessel bar transits during hazardous bar conditions for all recreational, commercial fishing, and passenger vessels. The Coast Guard requests and encourages open discussion and candid feedback on the possibility of establishing RNAs for Crescent City, Humboldt Bay, Noyo River, and Morro Bay harbor bar entrances. The following considerations warrant special attention:

- Weather and sea conditions at the bars that the maritime community considers a risk to safe navigation for recreational vessels, passenger vessels, fishing vessels and deep draft vessel;
- The economic impact of bar closures and restrictions on the maritime community; and
- Preferred methods of notification for bar restrictions and closures.
