

comply with Decision and Order and required RealtyTrac to expend additional resources not contemplated when the Commission issued the Decision and Order.

It also appears that CoreLogic did not provide all of the support to RealtyTrac that was required by the Order. For example, CoreLogic stopped standard third party testing of an ancillary product, in violation of the Decision and Order, and did not tell RealtyTrac or Commission staff that it had stopped this testing. RealtyTrac subsequently discovered a quality issue with the product that CoreLogic did not discover through its internal quality control processes. The issue was ultimately resolved and third party testing resumed.

To help resolve the issue of missing data, the Monitor hired a Technical Assistant, Dr. Thomas Teague. Dr. Teague helped the Monitor develop and recommend a technical plan to (i) identify the data that CoreLogic was required to provide under the Order, (ii) provide all missing data and information to RealtyTrac, and (iii) verify that the required data and information had been provided. With the help of the Monitor, CoreLogic is in the final stages of completing this plan with RealtyTrac. After that, CoreLogic will transfer of all required information regarding DataQuick's bulk data business to RealtyTrac.

CoreLogic's actions violated the Decision and Order and interfered with its remedial goal of maintaining competition in the market affected by CoreLogic's acquisition of DataQuick. CoreLogic slowed the delivery of DataQuick's bulk data and information to RealtyTrac. Further, RealtyTrac relied on CoreLogic's inaccurate assertions that it was providing RealtyTrac with all of DataQuick's bulk data. These actions, which violated its obligations under the Order, harmed RealtyTrac's reputation and required RealtyTrac to expend technical and financial resources to uncover missing data.

V. The Order Modifying Order

The most significant modification to the Decision and Order is a three-year extension of the period during which CoreLogic must provide updated bulk data to RealtyTrac. The initial five-year term in the Decision and Order will expire in March 2019. This extension will remediate the effect of CoreLogic's delays in providing all of the required data to RealtyTrac and extend CoreLogic's obligations through March 2022.

The Order Modifying Order also adds two detailed addenda to the Decision

and Order: A Technical Transfer Plan and a Service Level Addendum. The Technical Transfer Plan identifies the steps CoreLogic will take to transfer required data and information. The Service Level Addendum requires CoreLogic to meet certain data quality metrics and identifies the steps that CoreLogic must take to resolve any quality issues that arise. The Order Modifying Order also requires CoreLogic to provide prior notice before modifying the DataQuick Fulfillment Platform, which will allow the Commission to verify that CoreLogic has not altered the platform in a manner that violates the Order.

Finally, the Order Modifying Order resets two deadlines and decreases the frequency of required compliance reports. CoreLogic must provide customers early termination rights until nine months after completion of the first portion of the Technical Transfer Plan and provide technical assistance to RealtyTrac until one year after completion of the Technical Transfer Plan. The frequency of interim compliance reports is extended from every 60 days to every 90 days. This reduces the burden on CoreLogic without diminishing the ability of the staff and the Monitor to effectively monitor CoreLogic's compliance with the Decision and Order and Order Modifying Order.

The Commission does not intend this analysis to constitute an official interpretation of the proposed Consent Agreement or to modify its terms in any way.

By direction of the Commission. Commissioner McSweeney not participating by reason of recusal.

Donald S. Clark,
Secretary.

SUPPLEMENTARY INFORMATION: The National Occupational Research Agenda (NORA) is a partnership program created to stimulate innovative research and improved workplace practices. The national agenda is developed and implemented through the NORA sector and cross-sector councils. Each council develops and maintains an agenda for its sector or cross-sector.

Background: The National Occupational Research Agenda for Musculoskeletal Health is intended to identify the research, information, and actions most urgently needed to prevent occupational injuries. The National

Occupational Research Agenda for Musculoskeletal Health provides a vehicle for stakeholders to describe the most relevant issues, gaps, and safety and health needs for the sector. Each NORA research agenda is meant to guide or promote high priority research efforts on a national level, conducted by various entities, including: Government, higher education, and the private sector.

This is the first Musculoskeletal Health Agenda, developed for the third decade of NORA (2016-2026). It was developed considering new information about injuries and illnesses, the state of the science, and the probability that new information and approaches will make a difference. As the steward of the NORA process, NIOSH invites comments on the draft *National Occupational Research Agenda for Musculoskeletal Health*. Comments expressing support or with specific recommendations to improve the Agenda are requested. A copy of the draft Agenda is available at <https://www.regulations.gov> (see Docket Number CDC-2018-0025).

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Interstate Administrative Subpoena and Notice of Interstate Lien.
OMB No.: 0970-0152.

Description: Section 452(a)(11) of the Social Security Act requires the Secretary of the Department of Health and Human Services to promulgate a form for administrative subpoenas and imposition of liens used by State child support enforcement (Title IV-D) agencies. The Interstate Administrative Subpoena is used to collect information for the establishment, modification and enforcement of child support orders in interstate cases. Section 454(9)(E) of the Social Security Act requires each State to cooperate with any other State in using the federal form for issuance of administrative subpoenas and imposition of liens in interstate child support cases. The Notice of Interstate Lien impose liens in cases with overdue support and allows a State IV-D agency to file liens across State lines, when it is more efficient than involving the other State's IV-D agency. Tribal IV-D agencies are not required to use this form but may choose to do so. OMB approval of these forms is expiring on June 30, 2018 and the Administration for Children and Families is requesting an extension of this form.

Respondents: State, local or Tribal agencies administering a child support enforcement program under title IV-D of the Social Security Act.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Administrative Subpoena	30,076	1	0.50	15,038
Notice of Lien	1,892,073	1	0.50	946,037

Estimated Total Annual Burden Hours: 961,075.

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 330 C Street SW, Washington, DC 20201.
