on foreign supplier verification programs (FSVPs) to importers of certain live animals. The enforcement discretion would apply to importers of live animals that are required to be slaughtered and processed at U.S. Department of Agriculture (USDA) regulated establishments subject to USDA-administered Hazard Analysis and Critical Control Point (HACCP) requirements, or at State-inspected establishments subject to requirements equivalent to the Federal standard.

DATES: The announcement of the regulation is published in the **Federal Register** on March 22, 2018.

ADDRESSES: You may submit either electronic or written comments on Agency guidances at any time as follows:

SUPPLEMENTARY INFORMATION:

I. Background

We are announcing the availability of a guidance for industry entitled “Application of the Foreign Supplier Verification Program Regulation to the Importation of Live Animals: Guidance for Industry.” We are issuing this guidance consistent with our good guidance practices (GGP) regulation (21 CFR 10.115). We are implementing this guidance without prior public comment because we have determined that prior public participation is not feasible or appropriate (§ 10.115(g)(2)). We made this determination because the guidance presents a less burdensome policy consistent with the public health. Although this guidance is immediately in effect, it remains subject to comment in accordance with FDA’s GGP regulation. The guidance represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

Many live animals are imported into the United States for consumption as food. Most imported live animals (e.g., cattle and swine) that are for use as food are slaughtered under mandatory inspection by USDA’s Food Safety and Inspection Service (FSIS) and are processed at USDA-regulated establishments subject to USDA-administered Hazard Analysis Critical Control Point (HACCP) requirements. The slaughter and processing of other live animals (e.g., farmed bison, boar, and elk) is under FDA’s jurisdiction and is subject to FDA’s current good manufacturing practice and, unless an exemption applies, preventive controls requirements (21 CFR part 117). Some animals under FDA jurisdiction (“FDA animals”) are slaughtered under voluntary inspection by USDA–FSIS.

The importation into the United States of live animals for food use is subject to certain supplier verification requirements established in the FDA Food Safety Modernization Act (FSMA) (Pub. L. 111–353). FSMA amended the Federal Food, Drug, and Cosmetic Act (FD&C Act) to add, among other food

safety requirements, provisions requiring verification of the safety of food imported from foreign suppliers. Section 805(c) of the FD&C Act (21 U.S.C. 384(c)) directs FDA to issue regulations on the content of FSVPs. We issued the FSVP final rule on November 27, 2015 (80 FR 74225).

The FSVP regulation requires food importers to develop, maintain, and follow an FSVP that provides adequate assurances that the foreign supplier uses processes and procedures that provide the same level of public health protection as those required under the preventive controls or produce safety provisions of FSMA (if applicable) and regulations implementing those provisions, as well as assurances that the imported food is not adulterated and that human food is not misbranded with respect to allergen labeling (21 CFR 1.502(a)).

The food resulting from the slaughter and processing of certain live animals cannot be consumed without slaughter and processing at establishments subject to USDA-administered HACCP requirements (or equivalent state programs). In light of the role of another Federal agency with regard to these animals, FDA intends to exercise enforcement discretion with respect to the FSVP regulation for importers of live animals that are imported for slaughter and processing at USDA-regulated establishments subject to USDA-administered HACCP requirements, or imported for slaughter and processing under state requirements that are at least equivalent to the requirements for USDA-regulated establishments, including designated feeder animals. This means that we will not expect FSVP importers of live animals that are slaughtered and processed at USDA-inspected establishments subject to USDA-administered HACCP requirements (or State-inspected establishments subject to equivalent requirements) to meet any of the FSVP requirements.

II. Paperwork Reduction Act of 1995

This guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in part 1, subpart L, have been approved under OMB control number 0910–0752.

RIN 2135-AA43

Seaway Regulations and Rules: Periodic Update, Various Categories

AGENCY: Saint Lawrence Seaway Development Corporation, DOT.

ACTION: Final rule.

SUMMARY: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Regulations and Rules (Practices and Procedures in Canada) in their respective jurisdictions. Under agreement with the SLSMC, the SLSDC is amending the joint regulations by updating the Seaway Regulations and Rules in various categories. The changes update the following sections of the Regulations and Rules: Condition of Vessels; and, Dangerous Cargo. These amendments are merely editorial or for clarification of existing requirements. The joint regulations will become effective in Canada on March 29, 2018. For consistency, because these are joint regulations under international agreement, and to avoid confusion among users of the Seaway, the SLSDC finds that there is good cause to make the U.S. version of the amendments effective on the same date.

DATES: This rule is effective on March 29, 2018.

ADDRESSES: *Docket:* For access to the docket to read background documents or comments received, go to <http://www.Regulations.gov>; or in person at the Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Regulatory Evaluation

This regulation involves a foreign affairs function of the United States and therefore, Executive Order 12866 does not apply and evaluation under the Department of Transportation's Regulatory Policies and Procedures is not required.

Regulatory Flexibility Act Determination

I certify that this regulation will not have a significant economic impact on a substantial number of small entities. The St. Lawrence Seaway Regulations and Rules primarily relate to commercial users of the Seaway, the vast majority of who are foreign vessel operators. Therefore, any resulting costs will be borne mostly by foreign vessels.

Environmental Impact

This regulation does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321, *et seq.*) because it is not a major federal action significantly

affecting the quality of the human environment.

Federalism

The Corporation has analyzed this rule under the principles and criteria in Executive Order 13132, dated August 4, 1999, and have determined that this rule does not have sufficient federalism implications to warrant a Federalism Assessment.

Unfunded Mandates

The Corporation has analyzed this rule under Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4, 109 Stat. 48) and determined that it does not impose unfunded mandates on State, local, and tribal governments and the private sector requiring a written statement of economic and regulatory alternatives.

Paperwork Reduction Act

This regulation has been analyzed under the Paperwork Reduction Act of 1995 and does not contain new or modified information collection requirements subject to the Office of Management and Budget review.
