

antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

These final results are in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h) and 351.221(b)(5).

Dated: March 23, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The SEFSC requests a ten-year permit to study sea turtles in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea including international waters. The objectives of the research are to assess sea turtle populations for anthropogenic threats, abundance estimates, and population structure and mixing rates. Animals for study would be directly captured by hand, hoop net, pound net, seine, cast net, tangle net, or trawl or obtained for study from another legal source such as bycatch in a commercial fishery. Researchers would be authorized to examine, mark, image, collect morphometrics, collect a suite of biological samples, and attach transmitters to live sea turtles before release. A subset of these animals may also undergo hearing trials or laparoscopy and internal tissue sampling when transported and temporarily held in a facility before release. The SEFSC requests a small number of unintentional mortalities,
