SUPPLEMENTARY INFORMATION: Section 4007 of Title IV of the Employee Retirement Income Security Act of 1974 (ERISA) requires pension plans covered under Title IV pension insurance programs to pay premiums to PBGC. All plans covered by Title IV pay a flat-rate per-participant premium. An underfunded single-employer plan also pays a variable-rate premium based on the value of the plan's unfunded vested benefits.

Pursuant to section 4007, PBGC has issued its regulation on Payment of Premiums (29 CFR part 4007). Under § 4007.3 of the premium payment regulation, the plan administrator of each pension plan covered by Title IV

of ERISA is required to file a premium payment and information prescribed by PBGC for each premium payment year. Premium information must be filed electronically using "My Plan Administration Account" ("My PAA") through PBGC's website except to the extent PBGC grants an exemption for good cause in appropriate circumstances, in which case the information must be filed using an approved PBGC form. Under § 4007.10 of the premium payment regulation, plan administrators are required to retain records about premiums and information submitted in premium filings.

Premium filings report (i) the flat-rate premium and related data (all plans), (ii) the variable-rate premium and related data (single-employer plans), and (iii) additional data such as identifying information and miscellaneous plan-related or filing-related data (all plans). PBGC needs this information to identify the plans for which premiums are paid, to verify whether the amounts paid are correct, to help PBGC determine the magnitude of its exposure in the event of plan termination, to help track the creation of new plans and transfer of participants and plan assets and liabilities among plans, and to keep PBGC's insured-plan inventory up to date. That information and the retained records are also needed for audit purposes.

The collection of information under the regulation has been approved by OMB through March 31, 2018, under control number 1212-0009. On January 24, 2018 (at 83 FR 3369), PBGC gave public notice that it intended to request extension of OMB approval of this collection of information for three years and invited public comment. No comments were received. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive 23,700 premium filings per year from 23,700 plan administrators under this collection of information. PBGC further estimates that the annual burden of this collection of information is 10,439 hours and \$16,392,500.

Abstract of Proposed Collection

The Electronic Application for Immigrant Visa and Alien Registration (DS–260) is used to collect biographical information from individuals seeking an immigrant visa. The consular officer uses the information collected to elicit information necessary to determine an applicant's eligibility for a visa.

Methodology

The DS–260 will be submitted electronically over an encrypted connection to the Department via the internet. The applicant will be instructed to print a confirmation page containing a bar coded record locator, which will be scanned at the time of processing.

Additional Information

The Department is revising the collection to add several additional questions for immigrant visa applicants. One question lists multiple social media platforms and requires the applicant to provide any identifiers used by applicants for those platforms during the five years preceding the date of application. The platforms listed may be updated by the Department by adding or removing platforms. Additional platforms will be added only if collection is consistent with the uses described in the Supporting Statement and after Office of Management and Budget approval. In addition, the applicant will be given the option to provide information about any social media identifiers associated with any platforms other than those that are listed that the applicant has used in the last five years. The Department will collect this information for identity resolution and vetting purposes based on statutory visa eligibility standards. Other questions seek five years of previously used telephone numbers, email addresses, and international travel; all prior immigration violations; and whether specified family members have been involved in terrorist activities. The “Sign and Submit” statement will provide applicants information related to correcting records within Federal Bureau of Investigation databases and additional information regarding the immigrant visa medical examination. Applicants from countries where female genital mutilation/cutting (FGM/C) is prevalent will be provided a link in the DS–260 to an electronic pamphlet that covers the illegality of the practice in the United States. Further, applicants will be required to check a box verifying
