Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel From India: Final Affirmative Determination of Sales at Less than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that imports of certain cold-drawn mechanical tubing of carbon and alloy steel (cold-drawn mechanical tubing) from India are being, or are likely to be, sold in the United States at less than fair value (LTFV) during the period of investigation (POI) April 1, 2016, through March 31, 2017.

DATES: *Effective Date:* April 16, 2018.

FOR FURTHER INFORMATION CONTACT: Susan Pulongbarit or Omar Qureshi, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4031 or (202) 482-5307, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On November 22, 2017, Commerce published in the **Federal Register** the preliminary affirmative determination of sales at LTFV in the antidumping duty (AD) investigation of cold-drawn mechanical tubing from India.¹ On January 9, 2018, Commerce published the *Amended Preliminary Determination* in the **Federal Register**.² Commerce invited comments from interested parties on the *Preliminary Determination*.³ The petitioners, ArcelorMittal Tubular Products, Michigan Seamless Tube, LLC, Plymouth Tube Co. USA, PTC Alliance Corp., Webco Industries, Inc., and

Zekelman Industries, Inc. (collectively, the petitioners), and the two mandatory respondents, Goodluck India Limited (Goodluck), and Tube Products of India, Ltd. a unit of Tube Investments of India Limited (collectively, TPI) filed case and rebuttal briefs. Commerce exercised its discretion to toll all deadlines affected by the closure of the Federal Government from January 20 through 22, 2018. As a result, the revised deadline for the final determination of this investigation is now April 9, 2018.⁴

A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the accompanying Issues and Decision Memorandum.⁵ The Issues and Decision Memorandum is a public document, and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Scope of the Investigation

The product covered by this investigation is cold-drawn mechanical tubing from India. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

Certain interested parties commented on the scope of the investigation as it appeared in the Preliminary Scope Decision Memorandum.⁶ On December

⁴ See Memorandum for The Record from Christian Marsh, Deputy Assistant Secretary for Enforcement and Compliance, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, "Deadlines Affected by the Shutdown of the Federal Government" (Tolling Memorandum), dated January 23, 2018. All deadlines in this segment of the proceeding have been extended by 3 days.

⁵ See Memorandum, "Issues and Decision Memorandum for the Final Affirmative Determination in the Less-than-Fair-Value Investigation of Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel from India," dated concurrently with this determination and hereby adopted by this notice (Issues and Decision Memorandum or IDM).

4, 2017, the petitioners withdrew a portion of their comments regarding the scope language.⁷ Commerce addressed all scope comments received in the Final Scope Decision Memorandum.⁸

Period of Investigation

The POI is April 1, 2016, through March 31, 2017.

Verification

As provided in section 782(i) of the Tariff Act of 1930, as amended (the Act), between November and December 2017, Commerce conducted a verification of the sales and cost data reported by Goodluck and TPI. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs that were submitted by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of these issues is attached to this notice at Appendix II.

Use of Facts Available and Adverse Facts Available

For purposes of this final determination, Commerce determined Goodluck's margin on the basis of facts available with adverse inferences, pursuant to sections 776(a)(1), 776(a)(2)(B)-(C), and 776(b) of the Act. For further information, see the Issues and Decision Memorandum.

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made certain changes to the margin calculations. For a discussion of these changes, see the Issues and Decision Memorandum.

All-Others Rate

Sections 735(c)(1)(B)(i)(II) and 735(c)(5) of the Act provide that in the final determination Commerce shall determine an estimated all-others rate for all exporters and producers not

Memorandum for the Preliminary Determinations," dated November 15, 2017 (*Preliminary Scope Decision Memorandum*).

⁷ See the petitioners' letter, "Certain Cold-Drawn Mechanical Tubing from Germany et al.—EN-10305-3," dated December 4, 2017.

⁸ See Memorandum, "Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel from the Federal Republic of Germany, India, Italy, the Republic of Korea, the People's Republic of China, and Switzerland: Scope Decision Memorandum for the Final Determinations: Final Scope Decision Memorandum," dated December 4, 2017 (*Final Scope Decision Memorandum*).

individually investigated. Section 735(c)(5)(A) of the Act provides that the estimated “all-others” rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins

determined entirely under section 776 of the Act. Because TPI is the only respondent in this investigation for which Commerce calculated a company-specific rate which is not zero, *de minimis* or based entirely on facts available, pursuant to section 735(c)(5)(A) of the Act, we are using the weighted-average dumping margin

calculated for TPI as the estimated weighted-average dumping margin assigned to all other producers and exporters of the merchandise under consideration.

Final Determination Margins

The final estimated weighted-average dumping margins are as follows:

Exporter or producer	Estimated weighted-average dumping margin (percent)	Cash deposit rate (adjusted for offset(s)) (percent)
Goodluck India Limited	33.80*	33.70
Tube Products of India, Ltd. a unit of Tube Investments of India Limited (collectively, TPI)	8.26	5.87
All-Others	8.26	5.87

* (AFA)

Disclosure

We will disclose the calculations performed with respect to interested parties in this proceeding within five days of the public announcement of this final determination in accordance with 19 CFR 351.224(b). With respect to Goodluck, because Commerce relied on facts available with adverse inferences, there are no calculations to disclose.

Continuation of Suspension of Liquidation

In accordance with 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of cold-drawn mechanical tubing from India, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after November 22, 2017, the date of publication of the *Preliminary Determination*.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), Commerce will instruct CBP to require a cash deposit for such entries of merchandise equal to the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) The cash deposit rate for the respondents listed above will be equal to the respondent-specific estimated weighted-average dumping margin determined in this final determination; (2) if the exporter is not a respondent identified above but the producer is, then the cash deposit rate will be equal to the respondent-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others

estimated weighted-average dumping margin.

Commerce normally adjusts cash deposits for estimated antidumping duties by the amount of export subsidies countervailed in a companion countervailing duty (CVD) proceeding, when CVD provisional measures are in effect. Accordingly, where Commerce made an affirmative determination for countervailable export subsidies, Commerce has offset the estimated weighted-average dumping margin by the appropriate CVD rate. Any such adjusted cash deposit rate may be found in the “Final Determination Margins” section, above.

ITC Notification

In accordance with section 735(d) of the Act, we will notify the U.S. International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of cold-drawn mechanical tubing from India no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as

discussed above in the “Continuation of Suspension of Liquidation” section.

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/ destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act and 19 CFR 352.210(c).

Dated: April 9, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The scope of this investigation covers cold-drawn mechanical tubing of carbon and alloy steel (cold-drawn mechanical tubing) of circular cross-section, 304.8 mm or more in length, in actual outside diameters less than 331mm, and regardless of wall thickness, surface finish, end finish or industry specification. The subject cold-drawn mechanical tubing is a tubular product with a circular cross-sectional shape that has been cold-drawn or otherwise cold-finished after the initial tube formation in a manner that involves a change in the diameter or wall thickness of the tubing, or both. The subject

cold-drawn mechanical tubing may be produced from either welded (e.g., electric resistance welded, continuous welded, etc.) or seamless (e.g., pierced, pilgered or extruded, etc.) carbon or alloy steel tubular products. It may also be heat treated after cold working. Such heat treatments may include, but are not limited to, annealing, normalizing, quenching and tempering, stress relieving or finish annealing. Typical cold-drawing methods for subject merchandise include, but are not limited to, drawing over mandrel, rod drawing, plug drawing, sink drawing and similar processes that involve reducing the outside diameter of the tubing with a die or similar device, whether or not controlling the inside diameter of the tubing with an internal support device such as a mandrel, rod, plug or similar device. Other cold-finishing operations that may be used to produce subject merchandise include cold-rolling and cold-sizing the tubing.

Subject cold-drawn mechanical tubing is typically certified to meet industry specifications for cold-drawn tubing including but not limited to:

(1) American Society for Testing and Materials (ASTM) or American Society of Mechanical Engineers (ASME) specifications ASTM A-512, ASTM A-513 Type 3 (ASME SA513 Type 3), ASTM A-513 Type 4 (ASME SA513 Type 4), ASTM A-513 Type 5 (ASME SA513 Type 5), ASTM A-513 Type 6 (ASME SA513 Type 6), ASTM A-519 (cold-finished);

(2) SAE International (Society of Automotive Engineers) specifications SAE J524, SAE J525, SAE J2833, SAE J2614, SAE J2467, SAE J2435, SAE J2613;

(3) Aerospace Material Specification (AMS) AMS T-6736 (AMS 6736), AMS 6371, AMS 5050, AMS 5075, AMS 5062, AMS 6360, AMS 6361, AMS 6362, AMS 6371, AMS 6372, AMS 6374, AMS 6381, AMS 6415;

(4) United States Military Standards (MIL) MIL-T-5066 and MIL-T-6736;

(5) foreign standards equivalent to one of the previously listed ASTM, ASME, SAE, AMS or MIL specifications including but not limited to:

(a) German Institute for Standardization (DIN) specifications DIN 2391-2, DIN 2393-2, DIN 2394-2);

(b) European Standards (EN) EN 10305-1, EN 10305-2, EN 10305-3, EN 10305-4, EN 10305-6 and European national variations on those standards (e.g., British Standard (BS EN), Irish Standard (IS EN) and German Standard (DIN EN) variations, etc.);

(c) Japanese Industrial Standard (JIS) JIS G 3441 and JIS G 3445; and

(6) proprietary standards that are based on one of the above-listed standards.

The subject cold-drawn mechanical tubing may also be dual or multiple certified to more than one standard. Pipe that is multiple certified as cold-drawn mechanical tubing and to other specifications not covered by this scope, is also covered by the scope of this investigation when it meets the physical description set forth above.

Steel products included in the scope of this investigation are products in which: (1) iron predominates, by weight, over each of the other contained elements; and (2) the carbon content is 2 percent or less by weight.

For purposes of this scope, the place of cold-drawing determines the country of

origin of the subject merchandise. Subject merchandise that is subject to minor working in a third country that occurs after drawing in one of the subject countries including, but not limited to, heat treatment, cutting to length, straightening, nondestruction testing, deburring or chamfering, remains within the scope of this investigation.

All products that meet the written physical description are within the scope of this investigation unless specifically excluded or covered by the scope of an existing order. Merchandise that meets the physical description of cold-drawn mechanical tubing above is within the scope of the investigation even if it is also dual or multiple certified to an otherwise excluded specification listed below. The following products are outside of, and/or specifically excluded from, the scope of this investigation:

(1) cold-drawn stainless steel tubing, containing 10.5 percent or more of chromium by weight and not more than 1.2 percent of carbon by weight;

(2) products certified to one or more of the ASTM, ASME or American Petroleum Institute (API) specifications listed below:

- ASTM A-53;
- ASTM A-106;
- ASTM A-179 (ASME SA 179);
- ASTM A-192 (ASME SA 192);
- ASTM A-209 (ASME SA 209);
- ASTM A-210 (ASME SA 210);
- ASTM A-213 (ASME SA 213);
- ASTM A-334 (ASME SA 334);
- ASTM A-423 (ASME SA 423);
- ASTM A-498;
- ASTM A-496 (ASME SA 496);
- ASTM A-199;
- ASTM A-500;
- ASTM A-556;
- ASTM A-565;
- API 5L; and
- API 5CT

except that any cold-drawn tubing product certified to one of the above excluded specifications will not be excluded from the scope if it is also dual- or multiple-certified to any other specification that otherwise would fall within the scope of this investigation.

The products subject to the investigation are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers: 7304.31.3000, 7304.31.6050, 7304.51.1000, 7304.51.5005, 7304.51.5060, 7306.30.5015, 7306.30.5020, 7306.50.5030. Subject merchandise may also enter under numbers 7306.30.1000 and 7306.50.1000. The HTSUS subheadings above are provided for convenience and customs purposes only. The written description of the scope of the investigation is dispositive.

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with February anniversary dates. In accordance with Commerce's regulations, we are initiating those administrative reviews.

DATES: Applicable April 16, 2018.

FOR FURTHER INFORMATION CONTACT: Brenda E. Brown, Office of AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

SUPPLEMENTARY INFORMATION:

Background

Commerce has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with February anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports, sales, or entries during the period of review (POR), it must notify Commerce within 30 days of publication of this
