FOR FURTHER INFORMATION CONTACT: Charles McCormick or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the Bloodborne Pathogens Standard require employers to: Develop and maintain exposure control plans; develop a housekeeping schedule; provide workers with Hepatitis B Virus (HBV) vaccinations, post-exposure medical evaluations and follow-up; maintain medical and training records for specified periods; and provide employees and their authorized representatives with access to these records. Human Immunodeficiency Virus (HIV) and HBV research laboratories and production facilities must also adopt or develop, and review at least once a year, a biosafety manual. Employers must also establish and maintain a sharps injury log for the recording of percutaneous injuries from contaminated sharps.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements,

including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting an adjustment increase of 158,940 burden hours (from 5,528,742 hours to 5,687,682). This increase is a result of updated data showing an increase in the number of facilities (from 691,669 to 700,724) and employees (from 8,270,108 to 8,399,358) affected by the Standard.

The operation and maintenance cost increased from \$46,093,897 to \$51,817,985 due to the increase in medical costs. This increase is also a result of updated data showing an increase in the number of facilities and employees affected by the Standard.

Type of Review: Extension of a currently approved collection.

Title: Bloodborne Pathogens Standard (29 CFR 1910.1030).

OMB Control Number: 1218-0180.

Affected Public: Business or other for-profits.

Number of Respondents: 700,724.

Frequency: On occasion.

Average Time per Response: Varies.

Estimated Number of Responses: 26,656,386.

Estimated Total Burden Hours: 5,687,682.

Estimated Cost (Operation and Maintenance): \$51,817,985.

You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so that the Agency can attach them to your comments.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

DFEC Claims Identity Solution

AGENCY: Division of Federal Employees' Compensation, Office of Workers' Compensation Programs, Labor.

ACTION: Notice; Request for Comments.

SUMMARY: The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA). In this capacity, OWCP's Division of Federal Employees' Compensation (DFEC)

routinely responds to a myriad of written and telephonic inquiries. Claims staff issue written correspondence when developing and adjudicating a claim, and when terminating, reducing, or suspending compensation entitlement.

Because of security and safety concerns expressed by our employees, DFEC is proposing to change its longstanding procedure of placing employee names on correspondence and all decisions in FECA cases. A similar change would be applied to oral communications. To fulfill this requirement, the Division proposes to implement new pseudonym procedures by August 2018.

DATES: Written comments must be submitted to the office listed below on or before June 18, 2018.

ADDRESSES: You may submit comments concerning this notice by mail, delivery service, or by hand to Ms. Yoon Ferguson, United States Department of Labor, 200 Constitution Ave. NW, Room S-3201, Washington, DC 20210, telephone/fax to (202) 354-9647, by email to ferguson.yoon@dol.gov. Please use only the designated method of transmission for comments (mail, fax, or email). Please note that comments after the comment period will not be considered.

SUPPLEMENTARY INFORMATION: OWCP DFEC fully recognizes the importance of the safety and welfare of DFEC employees in its mandate to fulfill the requirements of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.* Balancing the safety of its employees and the communication needs of our stakeholders, DFEC is proposing the below methods in its written and telephonic communications:

1. All signatures and names currently appearing on outgoing correspondence will be replaced with "Division of Federal Employees' Compensation".

2. To preserve the Employees' Compensation Appeals Board's (ECAB) ability to identify the adjudicator of certain decisions, DFEC will use a QR code to identify decision authors.

3. A naming convention for the staff will be used to provide every employee with a pseudonym for use in telephone and other oral communications. Employees will utilize the entire first name and last name initial only. If more than one individual has that combination (e.g., two Thomas J.'s in an office) then the middle initial will be added.

4. Outgoing correspondence will not reveal the pseudonym when printed. Instead the pseudonym will be embedded into a QR Code on the letter,

allowing any person with a QR scanner on their mobile device to view the pseudonym.

This notice will be published in the **Federal Register**.

Dated: April 12, 2018.

Julia K. Hearthway,

Director, Office of Workers' Compensation Programs, U.S. Department of Labor.
