

American shad are tagged by the New York Department of Environmental Conservation (NYDEC), which retains all fish tagging information. The public reports tags to MDFWCO, who provides information on tag returns to NYDEC. Tag return data are used to monitor migration and abundance of shad along the Atlantic coast.

Data collected across these tagging programs are similar in nature, including: Tag number, date of capture, waterbody of capture, capture method, fish length, fish weight, fish fate (whether released or killed), fisher type (*i.e.*, commercial, recreational, etc.). In addition, if the tag reporter desires more information on their tagged fish or wants the modest reward that comes with reporting a tag, we ask their address so that we can mail them the information.

Abstract: The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee), as amended (Administration Act), and the Refuge Recreation Act of 1962 (16 U.S.C. 460k-460k-4) (Recreation Act) govern the administration and uses of national wildlife refuges and wetland management districts. The Administration Act consolidated all the different refuge areas into a single Refuge System. It also authorizes us to permit public uses, including hunting and fishing, on lands of the Refuge System when we find that the activity is compatible and appropriate with the purpose for which the refuge was established. The Recreation Act allows the use of refuges for public recreation when the use is not inconsistent or does not interfere with the primary purpose(s) of the refuge.

We administer 373 hunting programs and 310 fishing programs on 411 refuges and wetland management districts. We only collect user information at about 20 percent of these refuges. Information that we plan to collect will help us:

- Administer and monitor hunting and fishing programs on refuges.
- Distribute hunting and fishing permits in a fair and equitable manner to eligible participants.

We use nine application and report forms associated with hunting and fishing on refuges. We may not allow all opportunities on all refuges; therefore, we developed different forms to simplify the process and avoid confusion for applicants. The currently approved forms are available online at <http://www.fws.gov/forms/>. Not all refuges will use each form and some refuges may collect the identical information in a non-form format (meaning there is no designated form associated with the collection of information).

We use the following application forms when we assign areas, dates, and/or types of hunts via a drawing because of limited resources, high demand, or when a permit is needed to hunt. We issue application forms for specific periods, usually seasonally or annually.

- FWS Form 3–2354 (Quota Deer Hunt Application).
- FWS Form 3–2355 (Waterfowl Lottery Application).
- FWS Form 3–2356 (Big/Upland Game Hunt Application).
- FWS Form 3–2357 (Migratory Bird Hunt Application).
- FWS Form 3–2358 (Fishing/Shrimping/Crabbing Application).

Forms 3–2354 through 3–2358 collect information on:

- Applicant (name, address, phone number) so that we can notify applicants of their selection.
- User preferences (dates, areas, method) so that we can distribute users equitably.
- Whether or not the applicant is applying for a special opportunity for disabled or youth hunters.
- Age of youth hunter(s) so that we can establish eligibility.

We ask users to report on their success after their experience so that we can evaluate hunting/fishing quality and resource impacts. We use the following activity reports, which we distribute during appropriate seasons, as determined by State or Federal regulations.

- FWS Form 3–2359 (Big Game Harvest Report).
- FWS Form 3–2360 (Fishing Report).
- FWS Form 3–2361 (Migratory Bird Hunt Report).
- FWS Form 3–2362 (Upland/Small Game/Furbearer Report).

Forms 3–2359 through 3–2362 collect information on:

- Names of users so we can differentiate between responses.
- City and State of residence so that we can better understand if users are local or traveling.
- Dates, time, and number in party so we can identify use trends and allocate staff and resources.

• Details of success by species so that we can evaluate quality of experience and resource impacts.

Title of Collection: Hunting and Fishing Application Forms and Activity Reports for National Wildlife Refuges, 50 CFR 25.41, 25.43, 25.51, 26.32, 26.33, 27.42, 30.11, 31.15, 32.1 to 32.72.

OMB Control Number: 1018–0140.

Form Number: FWS Forms 3–2354 through 3–2362.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals and households.

Total Estimated Number of Annual Respondents: 805,492 (269,011 for applications and 536,481 for activity reports).

Total Estimated Number of Annual Responses: 805,492.

Estimated Completion Time per Response: 15 minutes for hunting/fishing applications and 10 minutes for activity reports.

Total Estimated Number of Annual Burden Hours: 156,667 (67,253 for applications and 89,414 for activity reports).

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion (for applications, usually once per year at the beginning of the hunting season; for activity reports, once at the conclusion of the hunting/fishing experience).

Total Estimated Annual Nonhour Burden Cost: We estimate the annual non-hour cost burden to be \$65,000 for hunting application fees at approximately 31 of the 408 refuges that are open for hunting and/or fishing.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
